FIRE LADDIES DID HEROIC WORK

Two Feed Stores are Complete Wrecks and a Number of Other Buildings Were Severely Scorched—The Origin of the Fire a Mystery.

Thanks to the heroic work of the East Liverpool fire department, the city is saved from a conflagration that would have far exceeded the fire of 1892, when the corner of Fifth and Market streets was destroyed.

As it was, the flames did damage that will aggregate \$10,000 to \$15,000, and the old tumble-down buildings on Sixth street, belonging to A. R. Mackall, that have long been an eyesore and menace to public safety, are in ruins, while adjoining buildings are badly scorched. Shortly before 12 o'clock, noon, as John Rinehart was passing along Market street, he looked down the alley and discovered smoke issuing from the building occupied by Cooper & Norman and A. B. King. Hallooing at someone to turn in an alarm, he ran to the scene.

In the meantime Robert McNeese, employed by King, and James Welch, were endeavoring to get the horses out of the stable. Welch untied two of the horses and turned them over to McNeese, while he attempted to get the other animal, a fine pacer, out, but it dropped before he could release it. Rinehart rushed to the door of Cooper & Norman's stable, and succeeded in getting it open just as the two fine gray horses fell to the floor. The fire department had by this time arrived on the scene and had several streams of water playing on the front of the building, but it was necessary to get a line on the rear of the place as soon as possible. Tom Bryan, the driver of the hose wagon, without a moment's hesitation, started his team down the alley between the Grand opera house and the blazing building, closely followed by several of the firemen. The act was one of the most courageous ever seen, as the man was right on a line with the flames, and lowering his head, passed through them, getting his face scorched in the brave act.

The building owned by J. M. Kelley, and used by the Eagle Hardware company as a tin shop, caught fire in a short time and the people busied themselves in carrying away the material, while a large tank of gasoline was taken to a place of safety. In a short time the firemen had a stream of water on this building, and an individual hose line of the Knowles, Taylor & Knowles company was attached to the fire plug at the corner of Fifth street. Water was thrown on the buildings on the rear of Knowles' and Kelley's lots, with the result that, beyond a severe scorching, the buildings escaped injury.

In the meantime there was a busy scene on Sixth street, the firemen working might and main to extinguish the flames, and save the large Travis building, while numerous small hose were throwing water on the row of frame buildings across the street.

Everything was taken out of Plankinton's meat shop, including the safe, while a host of people were moving the articles from the home of the Travis family, who occupy the rooms over the store rooms as a dwelling place.

Goodwin's hose was attached to the fire plug in front of the plant and water was turned on the flames in the rear of the Travis building. In a short time, however, the strain on the hose became too much, and it burst, completely drenching the people who were standing at the corner of Broadway and Sixth streets. There were eight streams playing on the fire at the same time, in addition to a number of small streams, and in a short time the flames were under control, although the old tumble down building in which the fire originated is a total wreck.

Mr. Norman was seated in his office when the fire broke out and says he started for the rear of the building to save the horses, when suddenly the smoke seemed to come down in a semi-circle, completely enveloping him. He then saw there was no use trying to get at the animals from the rear and rushed out the front of the building, narrowly escaping suffocation.

A window was broken in the Grand opera house, and the stage hands worked like trojans. They let all the scenery down to the floor, thus saving it from all damage other than that did by smoke.

W. E. Stewart, proprietor of the Grand hotel, was on top of the adjoining building, throwing water on the roof, while the girls employed in the hotel packed up all their belongings and

had them carried to a place of safety. Smith Fowler, who has an office in the hotel, had all his goods in readiness to be moved.

How the fire started is a mystery, but the opinion of the people who first saw it is that it must have originated from spontaneous combustion in the Cooper & Norman room, as the smoke was issuing from that part of the building.

A. R. Mackall, the owner of the building, is at present at Mt. Clemens, while G. Y. Travis, who is looking after his business, is in Clarkson. W. E. Cooper, the senior partner in the feed store, is in New Cumberland.

An estimate of the loss as near as can be learned is as follows: A. W. King, loss on stock and horse, \$3,000, insurance \$1,500; W. E. Cooper & Co., loss on stock and horses, \$3,100, insurance \$2,000; Grand Opera House, damaged by smoke, \$300, covered by insurance; Eagle Hardware company, loss to stock, \$100; covered by insurance; G. Y. Travis, loss on stable and house being scorched, \$200; J. M. Kelly, damage to building, \$150; covered by insurance. Whether Mr. Mackall had any insurance is not known, as he is out of the city. It is supposed the building is partially insured at least. The building occupied by Thompson's saloon was scorched and the windows cracked. Fifty dollars will cover their loss.

The building where the fire originated was erected by John Wick, Jr., many years ago, and was known as the Vienna skating rink. Mr. Wick sold it to a syndicate, who afterwards built the Fifth street rink, and the Sixth street property was turned into a variety theater under the name of Mozart hall. The variety theater business did not pay, and the building finally came into the hands of A. R. Mackall, the present owner, who turned it into a storeroom. Thus by the fire of today fades from sight a building that has quite a place in the minds of the amusement loving people of East Liverpool.

This is the first fire of any consequence that has occurred in the city since the advent of the new paid fire department, and by their work today they showed the advantage of having a department of this kind, as they were all on hand, ready to work in a short space of time. The fact was also developed that it would be well for council to engage several minute men, as was first talked of, to act with the department.

The pavement in front of destroyed building was enclosed by a rope this afternoon in order to keep the crowd back, but they persisted in going over the line to such an extent that it was found necessary to turn a stream upon them. This had the desired effect, and the firemen were allowed to continue their work uninterrupted.

A FAKE

Is the Ward Story Published in Saturday's Papers.

The New Brighton News says there is not a semblance of truth in the specials sent from Beaver Falls in regard to a religious riot Friday night, claiming the article was manufactured from a sensational motive. It says:

"An item appeared in this morning's Pittsburgh Dispatch, which for downright untruth, takes the biscuit. The article is unjust to the police, to the Free Methodists, and even to Ward. In the first place, the latter showed good sense by not coming near the engine house at any time during the evening. The Free Methodists held a short meeting, but they were not hooted and hissed. At its close they adjourned quietly to their tent, and were not pushed off the corner. The audience was an orderly one. The writer of the fake made a good crack when he said the police formed in a circle. It would be a big circle that two policemen could form. The reference to the Free Methodists is very unjust and is misleading. The members of this congregation, while they become enthusiastic, yet they do good, and it is wrong to accuse them of inciting riot by appearing against the wishes of the people. They incite no riots, act orderly and do not obstruct streets."

OUR SYSTEM.

A Drummer Declares It to be the Most Dangerous He Ever Patronized.

In conversation with a drummer last evening he said: "I have traveled on dangerous street car lines, but none more so than your system here at home. I went to Wellsville last night for a pleasure trip and the way the car tilted and bumped, and the speed in which it rounded curves, almost made my hair stand on end. The track in some places is very near the lower side of the hill, and if the car was derailed at such a speed as that of last night, a casualty could not be averted. I was reluctant to leave Wellsville on the return trip, but managed to reach Liverpool without accident. Necessary precautions would keep crepe from the door, and the patrons should demand it."

WHAT THE STORM DID

Several Places Struck by Lightning.

STREET CARS WERE DISABLED

Both the Street Car and Railroad Tracks Were Covered With Earth—Motors Burned Out—Stable In Chester Washed Away—Lightning's Pranks.

The storm yesterday afternoon exceeded in severity any of the kind that has been seen here for several years. The lightning struck in several places, and a number of people were stunned. The heavy down pour of rain also did some damage and great quantities of earth were washed over both the street car and railroad tracks, delaying traffic until the obstruction could be removed. About 3 o'clock in the afternoon dark, ominous looking clouds commenced to gather and a threatening aspect was soon apparent in the sky. About an hour later the elements burst forth in all their fury. The terrifying peals of thunder, accompanied simultaneously with vivid flashes of lightning, served to occasion a feeling of great alarm.

The residence of Frank Crook, of Fifth street, was struck by a bolt that partially shattered the cupola of the house, tearing off a few shingles and slates from the roof and knocking plaster from the ceiling of the room below. The fluid then apparently changed its course, glanced off the house and entered the ground. Mr. Crook and wife were seated on the back porch, and his daughter, Pauline, was in the front part of the house when the shock came, but were not in the least affected by the electric current, although greatly alarmed. Through fright Miss Crook fainted, but was soon restored to consciousness.

A large tree standing in front of the residence of Reverend Sloan, in Morton's addition, was struck and the bark peeled off. A tree standing close to the residence of Mrs. Jessie Mumford, of California hollow, was also struck and the lady was so seriously stunned that it was necessary to call a physician. Mrs. Thomas Sample, of Sixth street, wife of Mail Carrier Sample, was also dazed slightly when an unusually large bolt came.

A number of street cars were also burnt out and disabled at Jethro switch. The motor in Mat Friend's car burnt out amid a shower of sparks, and for the time being it looked as if the car would take fire. Several cars in other parts of the city were also tied up as a direct cause of the storm. A great mass of earth was washed over the track at the foot of Franklin street, covering the rails. Motorman Mike Fisher's car ran into the obstruction and jumped the track. A force of men were set at work at once and soon had the road opened and the car placed on the track.

The Cleveland and Pittsburgh tracks at the foot of Jefferson street and near the flint mill were also partially submerged with small landslides, and freight trains were delayed. At 10 o'clock last night Section Boss Hickey, with a corps of assistants, had the line free again.

A barn built alongside of Chester run, and used for stabling purposes by J. C. Cunningham, was washed down into the stream by the torrent of water, and carried to the river bank.

The storm abated for about two hours, but would break out periodically during the evening, although not so severe. While the latter storm was in progress lightning struck the office of C. C. Thompson's pottery, but did not do much damage. The fluid entered the building over the electric light wire, and caused the paper on the ceiling to ignite. Night Watchman Calhoun happened to be in that part of the building and extinguished the blaze. The lightning rod on the house occupied by Thomas Snape, on Thompson hill, was struck, but the current was carried to the ground and no damage done.

A number of streets were left in a wretched condition by the great volume of water that poured down them. Commissioner Finley, with a force of men, were at work during the downpour of rain in the afternoon at the Tanyard run sewer on Minerva street, that is always in danger of getting clogged when a flood comes.

A RAID.

Wellsville Police Pull the Occupants of a Disorderly House.

The Wellsville police were aching for a raid Saturday night, and accordingly began a tour of the village, looking for

offenders. While passing a house presided over by a colored man named Johnston, at the corner of Fourth and Hill streets, they noticed that all seemed not well within. Surrounding the building, an entrance was effected, with the result that three women and four men were taken in charge and escorted to the bastille. Three of the men claim they are from Hammondsville, but it is thought they are from a nearer town and do not care to have their identity known.

WHAT WILL FOLLOW

If the Board Decide It Necessary to Make a New Contract.

A question to be taken up and settled tonight by the board of education is whether or not the action of the former board in engaging Superintendent Sanor for a term of three years, is binding on the present board.

It has been maintained by several members that when the old board stepped out of office the contract made with the superintendent became void. Solicitor Grosshans will be present tonight and advise on the subject. A letter from the state commissioner of schools at Columbus says distinctly that the contract is perfectly valid, and it is quite probable that the board will be governed by this authoritative opinion. If they decide to the contrary, to be consistent, all other transactions and contracts entered into by the old board would necessarily be declared invalid, and the present board would be obliged to make fresh contracts for the engaging of teachers, hiring of janitors, and in fact, many other countless details, including the payment of bonds on the new school buildings that would entail a great deal of arduous labor and bother. Therefore, if it is deemed right to make another contract for the services of Superintendent Sanor, it also becomes necessary to do likewise with all the acts of the old board.

A NEW IDEA.

A Unique Scheme for Concealing Plate Glass Windows.

Among the many unique occupations which have recently sprung up is that of concealing the defects in cracked plate glass windows. The "artist" does not pretend to operate with effect on a window that has been smashed with a cobblestone or a fireman's ax, but for \$2 he will make a thing of beauty and a joy forever out of two or three long, disfigured cracks. It is all done with a paint brush and the method is simple. Under the artist's skillful touch the cracks become the stems of twining vines, and each crack is made the basis of a young offshoot. To this foundation is added leaves and sometimes a flower or so, and if the cracks run in the right direction the effect is natural. On the whole the new idea is cheaper than replacing the glass, and the artist does a flourishing business.—Glass and Pottery World.

SPOT HIM.

An Object of Charity Who Spends His Money in the Saloons.

A one-legged man, who walks with the aid of crutches, has been making this city and Wellsville his home. He claims to have lost his leg by being run over by a train, and approaching people with a melancholy expression, recites a well-learned story of alleged misfortunes, which invariably touches a soft spot in the hearts of his listeners. He winds up his appeal by presenting a card containing verses on the sorrows of the crippled, the price of which is at the option of the purchaser. The money accruing from the sale of these cards, he says, is to enable him to start in some honorable business. Many extend a helping hand to the cripple, but the money thus given in charity is soon expended in satisfying a burning thirst for liquor at the nearest saloon.

ANNUAL MEETING.

The Young Men's Christian Association Will Meet This Evening.

The annual meeting of the Young Men's Christian association will take place tonight, and a new board of directors will be elected and various reports for the past year will be read by the officers. The meeting will be different from any yet held by the association, inasmuch as a reception will take place after the business has been transacted. A very enjoyable program has been arranged, which will embrace some of the best musical talent in the city, and it is more than probable that the annual meeting of the Young Men's Christian association held, in 1896, will be taken as an example for all future meetings of the kind.

A Marriage.

David A. McKee and Mrs. Callie Sinclair were united in marriage at the United Presbyterian parsonage, Calcutta, on Saturday, by Rev. Joseph McKelvey. The contracting parties are from this city.

SOME SPORTING NOTES

The Eclipse Club Defeated at Beaver Falls.

CRACKJACKS LOST AT FREEDOM

Saturday Was a Bad Day For Liverpool Baseball Teams, as They Met Defeat at the Hands of Pennsylvania Clubs—Other Items of Interest.

The East Liverpool ball clubs that played away from home Saturday didn't fare very well, as both teams were beaten.

The Eclipse team went to Beaver Falls and met defeat at the hands of the Nonpareils. The game was not an interesting one, as the Eclipse club didn't put up their usual good article of ball, and the Nonpareils had little trouble in downing them. Fry took sick in the third inning and Webber filled his place on first base. To make it worse, the boys claim they got a little the worst of it from the umpire. The score:

Nonpareils.....1 0 1 6 0 0 3 5 *—16
Eclipse.....0 0 0 0 2 1 0 1 0—4
Hits—Eclipse, 5; Nonpareils, 15.
Errors—Eclipse, 7; Nonpareils, 5.
Batteries—McCurran and Davis.
Nonpareils, Gilliland and Boyle.

A number of sports were along with the team, who bet all the money they had on the Eclipse boys before the game started. There are now several sadder but wiser boys in East Liverpool.

The Crackjacks went to Freedom Saturday, and met much the same kind of welcome given to the Eclipse club at Beaver Falls. The game was lost through their inability to hit the Freedom pitchers, who moved them down with the greatest ease. The score:

Crackjacks.....1 0 0 1 1 0 0 0—3
Freedom.....5 1 4 0 1 0 2 2 0—15

Earned runs—Crackjacks, 1; Freedom, 3. Hits—Crackjacks, 5; Freedom, 14. Errors—Crackjacks, 5; Freedom, 1. Struck out—By Guthrie, 2; by Davis, 8; by Blatt, 10; by Minsinger, 6. Bases on balls—By Guthrie, 3; by Blatt, 3. Batteries—Crackjacks, Guthrie, Davis and Chambers; Freedom, Blatt, Minsinger and Kehr. Umpire, Brown.

The boys say they got a fair deal, and were treated in the best manner possible, but were defeated, because the other fellows played the best ball.

The Young Men's Christian association club and the Albions will play at West End park on Friday afternoon.

Mercer pitched the last two innings in the game against Louisville Saturday, and had 1 run, a three base hit and 3 strike outs to his credit, while he gave 3 bases on balls.

The Columbia club of the East End failed to go to Wellsville Saturday, although scheduled for a game at that place.

A nine, composed of clerks from here, will play the Wellsville clerks tomorrow afternoon. The game will be played at Wellsville, but a return game has been arranged.

The potters' bicycle club is the name of an organization recently formed in the city. A road race will be given from Steubenville in the near future. William Davis, Louis Ford, John Ward and Vernard Campbell have entered, and the race will be a close one. A time limit of 2:45 has been set and prizes will be given to those finishing in that time. The races will finish in the Diamond.

The East Liverpool baseball club will hold a meeting this evening at 7:30 o'clock.

A postal was received by Manager Morris this morning from the Holy Ghost college team, saying that they were willing to change the date and would arrive here on the early train Wednesday morning. The question that now arises is whether the grounds will be fit to play on by that day, as they are at present covered with water. The Holy Ghosts are a strong team, and a first class contest can be expected.

A number of the players of the East Liverpool baseball club will play with the Lisbon team on the 18th and 19th of this month against Niles.

DIED AT PITTSBURG.

George Thompson, an East End Resident, Passes Peacefully Away.

George L. Thompson, of the East End, died at the West Penn hospital Saturday afternoon, after an illness of almost a year. The gentleman had been suffering from stomach trouble and went to Battle Creek sanitarium some time ago in the hope of getting relief. After staying there quite a while he returned to his home much improved. Three weeks ago he had a relapse and was taken to Pittsburgh, but was beyond medical aid. The remains were brought home Saturday evening, and the funeral took place from his late residence this afternoon.

The residence of Frank Crook, of Fifth street, was struck by a bolt that partially shattered the cupola of the house, tearing off a few shingles and slates from the roof and knocking plaster from the ceiling of the room below. The fluid then apparently changed its course, glanced off the house and entered the ground. Mr. Crook and wife were seated on the back porch, and his daughter, Pauline, was in the front part of the house when the shock came, but were not in the least affected by the electric current, although greatly alarmed. Through fright Miss Crook fainted, but was soon restored to consciousness.

A large tree standing in front of the residence of Reverend Sloan, in Morton's addition, was struck and the bark peeled off. A tree standing close to the residence of Mrs. Jessie Mumford, of California hollow, was also struck and the lady was so seriously stunned that it was necessary to call a physician. Mrs. Thomas Sample, of Sixth street, wife of Mail Carrier Sample, was also dazed slightly when an unusually large bolt came.

A number of street cars were also burnt out and disabled at Jethro switch. The motor in Mat Friend's car burnt out amid a shower of sparks, and for the time being it looked as if the car would take fire. Several cars in other parts of the city were also tied up as a direct cause of the storm. A great mass of earth was washed over the track at the foot of Franklin street, covering the rails. Motorman Mike Fisher's car ran into the obstruction and jumped the track. A force of men were set at work at once and soon had the road opened and the car placed on the track.

The Cleveland and Pittsburg tracks at the foot of Jefferson street and near the flint mill were also partially submerged with small landslides, and freight trains were delayed. At 10 o'clock last night Section Boss Hickey, with a corps of assistants, had the line free again.

A barn built alongside of Chester run, and used for stabling purposes by J. C. Cunningham, was washed down into the stream by the torrent of water, and carried to the river bank.

The storm abated for about two hours, but would break out periodically during the evening, although not so severe. While the latter storm was in progress lightning struck the office of C. C. Thompson's pottery, but did not do much damage. The fluid entered the building over the electric light wire, and caused the paper on the ceiling to ignite. Night Watchman Calhoun happened to be in that part of the building and extinguished the blaze. The lightning rod on the house occupied by Thomas Snape, on Thompson hill, was struck, but the current was carried to the ground and no damage done.

A number of streets were left in a wretched condition by the great volume of water that poured down them. Commissioner Finley, with a force of men, were at work during the downpour of rain in the afternoon at the Tanyard run sewer on Minerva street, that is always in danger of getting clogged when a flood comes.

A RAID.

Wellsville Police Pull the Occupants of a Disorderly House.

The Wellsville police were aching for a raid Saturday night, and accordingly began a tour of the village, looking for

offenders. While passing a house presided over by a colored man named Johnston, at the corner of Fourth and Hill streets, they noticed that all seemed not well within. Surrounding the building, an entrance was effected, with the result that three women and four men were taken in charge and escorted to the bastille. Three of the men claim they are from Hammondsville, but it is thought they are from a nearer town and do not care to have their identity known.

WHAT WILL FOLLOW

If the Board Decide It Necessary to Make a New Contract.

A question to be taken up and settled tonight by the board of education is whether or not the action of the former board in engaging Superintendent Sanor for a term of three years, is binding on the present board.

It has been maintained by several members that when the old board stepped out of office the contract made with the superintendent became void. Solicitor Grosshans will be present tonight and advise on the subject. A letter from the state commissioner of schools at Columbus says distinctly that the contract is perfectly valid, and it is quite probable that the board will be governed by this authoritative opinion. If they decide to the contrary, to be consistent, all other transactions and contracts entered into by the old board would necessarily be declared invalid, and the present board would be obliged to make fresh contracts for the engaging of teachers, hiring of janitors, and in fact, many other countless details, including the payment of bonds on the new school buildings that would entail a great deal of arduous labor and bother. Therefore, if it is deemed right to make another contract for the services of Superintendent Sanor, it also becomes necessary to do likewise with all the acts of the old board.

A NEW IDEA.

A Unique Scheme for Concealing Plate Glass Breaks.

Among the many unique occupations which have recently sprung up is that of concealing the defects in cracked plate glass windows. The "artist" does not pretend to operate with effect on a window that has been smashed with a cobblestone or a fireman's ax, but for \$2 he will make a thing of beauty and a joy forever out of two or three long, disfigured cracks. It is all done with a paint brush and the method is simple. Under the artist's skillful touch the cracks become the stems of twining vines, and each crack is made the basis of a young offshoot. To this foundation is added leaves and sometimes a flower or so, and if the cracks run in the right direction the effect is natural. On the whole the new idea is cheaper than replacing the glass, and the artist does a flourishing business.—Glass and Pottery World.

SPOT HIM.

An Object of Charity Who Spends His Money in the Saloons.

A one-legged man, who walks with the aid of crutches, has been making this city and Wellsville his home. He claims to have lost his leg by being run over by a train, and approaching people with a melancholy expression, recites a well-learned story of alleged misfortunes, which invariably touches a soft spot in the hearts of his listeners. He winds up his appeal by presenting a card containing verses on the sorrows of the crippled, the price of which is at the option of the purchaser. The money accruing from the sale of these cards, he says, is to enable him to start in some honorable business. Many extend a helping hand to the cripple, but the money thus given in charity is soon expended in satisfying a burning thirst for liquor at the nearest saloon.

ANNUAL MEETING.

The Young Men's Christian Association Will Meet This Evening.

The annual meeting of the Young Men's Christian association will take place tonight, and a new board of directors will be elected and various reports for the past year will be read by the officers. The meeting will be different from any yet held by the association, inasmuch as a reception will take place after the business has been transacted. A very enjoyable program has been arranged, which will embrace some of the best musical talent in the city, and it is more than probable that the annual meeting of the Young Men's Christian association held, in 1896, will be taken as an example for all future meetings of the kind.

A Marriage.

David A. McRea and Mrs. Callie Sinclair were united in marriage at the United Presbyterian parsonage, Calcutta, on Saturday, by Rev. Joseph McKelvey. The contracting parties are from this city.

SOME SPORTING NOTES

The Eclipse Club Defeated at Beaver Falls.

CRACKAJACKS LOST AT FREEDOM

Saturday Was a Bad Day For Liverpool Baseball Teams, as They Met Defeat at the Hands of Pennsylvania Clubs—Other Items of Interest.

The East Liverpool ball clubs that played away from home Saturday didn't fare very well, as both teams were beaten.

The Eclipse team went to Beaver Falls and met defeat at the hands of the Nonpareils. The game was not an interesting one, as the Eclipse club didn't put up their usual good article of ball, and the Nonpareils had little trouble in downing them. Fry took sick in the third inning and Webber filled his place on first base. To make it worse, the boys claim they got a little the worst of it from the umpire. The score: Nonpareils.....1 0 1 6 0 0 3 5 *—16
Eclipse.....0 0 0 0 2 1 0 1 0—4
Hits—Eclipse, 5; Nonpareils, 15.
Errors—Eclipse, 7; Nonpareils, 5. Batteries—Eclipse, McCurran and Davis. Nonpareils, Gilliland and Boyle.

A number of sports were along with the team, who bet all the money they had on the Eclipse boys before the game started. There are now several sadder but wiser boys in East Liverpool.

The Crackajacks went to Freedom Saturday, and met much the same kind of welcome given to the Eclipse club at Beaver Falls. The game was lost through their inability to hit the Freedom pitchers, who moved them down with the greatest ease. The score: Crackajacks.....1 0 0 1 1 0 0 0—3
Freedom.....5 1 4 0 1 0 2 2 0—15

Earned runs—Crackajacks, 1; Freedom, 3. Hits—Crackajacks, 5; Freedom, 14. Errors—Crackajacks, 5; Freedom, 1. Struck out—By Guthrie, 2; by Davis, 8; by Blatt, 10; by Minsinger, 6. Bases on balls—By Guthrie, 3; by Blatt, 3. Batteries—Crackajacks, Guthrie, Davis and Chambers; Freedom, Blatt, Minsinger and Kehr. Umpire, Brown.

The boys says they got a fair deal, and were treated in the best manner possible, but were defeated, because the other fellows played the best ball.

The Young Men's Christian association club and the Albions will play at West End park on Friday afternoon.

Mercer pitched the last two innings in the game against Louisville Saturday, and had 1 run, a three base hit and 3 strike outs to his credit, while he gave 3 bases on balls.

The Columbia club of the East End failed to go to Wellsville Saturday, although scheduled for a game at that place.

A nine, composed of clerks from here, will play the Wellsville clerks tomorrow afternoon. The game will be played at Wellsville, but a return game has been arranged.

The potters' bicycle club is the name of an organization recently formed in the city. A road race will be given from Steubenville in the near future. William Davis, Louis Ford, John Ward and Vernard Campbell have entered, and the race will be a close one. A time limit of 2:45 has been set and prizes will be given to those finishing in that time. The races will finish in the Diamond.

The East Liverpool baseball club will hold a meeting this evening at 7:30 o'clock.

A postal was received by Manager Morris this morning from the Holy Ghost college team, saying that they were willing to change the date and would arrive here on the early train Wednesday morning. The question that now arises is whether the grounds will be fit to play on by that day, as they are at present covered with water. The Holy Ghosts are a strong team, and a first class contest can be expected.

A number of the players of the East Liverpool baseball club will play with the Lisbon team on the 18th and 19th of this month against Niles.

DIED AT PITTSBURG.

George Thompson, an East End Resident, Passes Peacefully Away.

George L. Thompson, of the East End, died at the West Penn hospital Saturday afternoon, after an illness of almost a year. The gentleman had been suffering from stomach trouble and went to Battle Creek sanitarium some time ago in the hope of getting relief. After staying there quite a while he returned to his home much improved. Three weeks ago he had a relapse and was taken to Pittsburgh, but was beyond medical aid. The remains were brought home Saturday evening, and the funeral took place from his late residence this afternoon.

EAST LIVERPOOL, O., MONDAY, JUNE 8

For President,
WILLIAM MCKINLEY,
Of Ohio.

MCKINLEY AND REED.

Is there a possibility that this will be the head of the Republican ticket in the coming contest? Will Reed be satisfied with a secondary position? Are the advantages to be secured by his acceptance sufficiently powerful and desirable to induce him to cast aside his ambition for first place on the ticket? These are pertinent questions. Who can answer them satisfactorily?

THE LYING CORRESPONDENT.

HE MISREPRESENTS THE PITTSBURGH DISPATCH, and has caused this city to be looked upon in an unfavorable light, owing to his absolute disregard for truthfulness. His report of the lightning destroying very valuable property at Thompson's pottery yesterday is about on a par with his general make-up of untruthfulness and unreliability. You know him.

GROVER.

And now Grover is made to say that, rather than support a free silver Democrat on a free silver platform, he, in company with members of his cabinet, will vote for McKinley. Will there be a bolt in the Democratic party on the money question? Will there be a bolt in the Republican party on the money question? Who can answer? In the words of the immortal bard, "Where are we at?"

THE COWARD.

He is on a par with the slanderer, eavesdropper and perjurer. We have a few of him in East Liverpool, in common with other cities of like size and enterprise. He seems to be a necessity, in order that decent citizens may shine the brighter by comparison. He borrows from everybody he can thus victimize. He never pays his debts. If in business, all goods are sent to him over the C. O. D. line. You know him. Everybody knows him. He is branded. Selah.

TURTLES ON TOAST.

The articulated press news of this morning declare that "shells, gravel, fishes and turtles" fell upon the streets of Chicago yesterday, during the storm. An interested observer asserts that this was caused by "air vacuums, whirlwinds and straight winds, which have prevailed throughout the west for a week past." The wise man does not assert that the turtles have been floating around in space for that time, but such is the impression conveyed. If they are soft shells, the next query would be as to their size, state of freshness, and their fitness to be served up on toast. If all O. K., epicures of East Liverpool desire to have a storm of a similar nature visit this city.

OUR FIRE DEPARTMENT.

It is a marked and flattering success, viewed from the efforts made at the fire of this morning, and is the subject of general commendation. It is deserving of all the good things said of it, and they are numerous, as the editor can vouch for as coming under his personal hearing, while taking in the fire from different standpoints. Tom Bryan did a gallant and courageous act in driving his handsome grays through the flame, when it became necessary to trail the hose through the alley, in order to expedite the hurling of water upon the buildings, from a favorable standpoint. His face and hair were singed and scorched in the rush, but he stuck to his post like a hero. The same courage was shown by the men working from the Sixth street front, they taking desperate risks in entering the burning building, in order to secure better vantage ground against the fire. There was not a laggard or shirk engaged, and the department should be held in the highest respect and esteem by our citizens. Let the members continue to do their duty as they did it today, and they will have friends on every hand.

THE STORM.

It was indeed a storm, in so far as vivid lightning was concerned, and

THEY HAVE BEEN GREAT SELLERS

No Stickers, as we Call Them. Stickers are Poor Sellers.

This is the reason many merchants find themselves at the end of the season with too many stickers, and their suits carried over from one season until other seasons, accumulating what is known as old stock or over stock of undesirable goods.

We are Making a Special Sale This Week.

WHAT WE CALL SELLERS—Suits that have been sellers with us this season, nobby, stylish, up-to-date goods. Of these suits you may find one, two or three of a style left.

Suits that are worth and sold by dealers at
\$13.00, \$14.00, \$15.00, \$16.00, \$17,

Choice \$10.00

These prices will knock out stickers, poor sellers, sweat-shop-made clothing. The greatest sale of suits in the city.

COME AT ONCE.

Take Advantage of these Prices.

This sale continues as long as these suits last. Your opportunity to buy stylish goods. Prices that will bring new customers to our store.

JOSEPH BROS.

many residents of East Liverpool will coincide with this statement. A lady and gentlemen in this city were seated in their cosy home when the storm broke forth. The lady was seated in the dining room and the gentleman upon the porch, the latter deeply interested in noting the fury of the elements and commenting upon the power and brilliancy of the lightning. The wife, made nervous by the repeated flashes, urged her partner to come in the house. The latter complied and sat down near the open doorway, but farther back in the room. Then came a flash which blinded both man and wife, the former involuntarily bowing his head upon the table in front of him, while the latter sat gazing at the door, as if spell-bound. The lady states that she was confident that the lightning struck just below the house, as she noted what appeared like a ball of fire immediately in front of the residence. Both man and wife complained of severe pains in the upper part of the body for several minutes after the flash, and there was a sudden closing of doors and putting down of windows. The call was fully as close as the couple desired, and made them very nervous for the time being.

HONEST MONEY.

What constitutes honest money? A purchasing medium which is good for one hundred cents on the dollar, not only in this nation, but all over the civilized world. Should this medium be gold or silver? It depends entirely upon the credit and standing of the nation which makes the issue. If the credit of the nation is A 1, and if that nation places her stamp upon the circulating medium, guaranteeing its redemption in gold, whenever and wherever presented, is not silver or paper, issued by said government, just as good as gold? These are pertinent questions, of vital import to the masses which constitute the nation. Gold is good for its face at any time. But if a nation, hampered by debt and outstanding obligations, sees fit to pass a law granting the unlimited coinage of silver, will not the result be that such circulating medium will become, to a large extent, worthless, and will it not prove an absolute curse to the masses whom it professes to be friendly to? Is there a combination medium which can be made a safe and sure one? Can a limited circulation of silver be enacted by law and held within such bounds that safety to the monied and industrial interests of the nation will be assured? Where is the

Solomon who will arise in this nation at the present time and solve this vital problem? The present aspect of affairs indicate that the money question will be an all-absorbing feature in the coming presidential campaign, with the outlook that the Democratic convention will make a bid for popular votes through the medium of the unlimited coinage of silver, while the Republican convention will aim to look to the best interests of the nation through the medium of honest money. The indications are that honest money, backed by protection to home and home industries, will win for the Republican party the greatest victory ever occurring in the history of the United States.

Picked Up a Live Wire.

NORWALK, O., June 8.—Two young men named Ackerman of North Milan were severely shocked and burned by a telephone wire, which broke and fell into their yard. One picked it up and was thrown down. The other went to his assistance and was knocked senseless.

Tried to Lynch Him.

XENIA, O., June 8.—At Cedarville, Rome Murray, while drunk, tried to kill his wife and baby with a hatchet. A crowd of enraged citizens tried to lynch Murray, but he was put in jail at Xenia before they could get him.

The Weather.

Partly cloudy with local thunder storms; fresh and brisk southerly to westerly winds; cooler in western portion.

CONGRESS UNCERTAIN,

But Likely to Adjourn Some Time This Week.

THE HOUSE FAVORS ADJOURNMENT.

The Senate In Doubt About Getting a Quorum—Many Members Leaving the City—Very Little Important Business Done at the Session.

WASHINGTON, June 8.—The house managers have parliamentary machinery in operation which will enable them to secure prompt action on every proposition submitted by the conferees on the five remaining appropriation bills looking to an adjustment of the differences between the two houses. The difference between the two houses on the four supply bills (the sundry civil, naval, Indian and District of Columbia) are radical, but by mutual concessions the house leaders believe the differences can be adjusted so as to permit an adjournment Tuesday or Wednesday.

In the sundry civil bill the house has thus far persistently refused to accept the amendments for public buildings at the capitols of Utah, Idaho, Wyoming and Montana, and the additions for the public buildings at Kansas City, Savannah, Ga., and Camden, N. J.

In the naval bill the house has remained equally firm in its insistence on four battleships and \$425 per ton as the maximum cost of armor plate. To both of these items the senate has declined to agree and refused a compromise. The senate insists on two battleships and a reduction of the cost of armor plate to \$320 per ton.

In the Indian bill, which has no less than four times voted for the immediate termination of appropriations for sectarian Indian schools as against the senate's proposition to allow them to run until 1897, the house declined to accept as a compromise their termination in 1897. On the question of sectarian schools it does not seem probable that the house can be induced to yield. The probabilities are that the other items will be compromised, saving and excepting the public building items in the sundry civil bill, which it seems likely the senate will eventually abandon.

The main difficulty in the way of an adjournment by the middle of the week seems to lie at the senate end of the capitol, where a single senator can obstruct matters, if he chooses, until the quorum fails, when all chance of a sine die adjournment before the St. Louis convention will disappear. An intense desire of members at both ends of the capitol to get away, however, will do much toward inducing those who are disposed to raise factious opposition to yield their individual desires to accomplish this result.

GENERAL DEFICIENCY BILL.

May Cause Some Delay in the Senate, Senators Leaving.

WASHINGTON, June 8.—Whether the senate shall be able to conclude the work of the session this week will probably depend upon whether a quorum can be obtained. Some senators are opposed to the passage of the new general deficiency bill with the French spoliation claims and the store and supply claims allowed under the Bowman act omitted. Senator Harris makes no secret of his intention to demand the restoration of these items to the bill, and says that he will not consent to its passage without them except upon an aye and no vote. If he insists on this a voting quorum will be necessary. Several senators have announced their purpose of leaving the city early in the week, and many others will depart about the middle of the week for St. Louis. Under these circumstances it is possible that adjournment may be postponed until after the Republican convention, though there will be a very general effort to prevent this.

The other appropriation bills which have not finally been disposed of are: The Indian, the District of Columbia, the sundry civil, the naval and the post-office.

LITTLE BUSINESS TRANSACTED.

Some Important Bills Passed, But Many Still on the Calendar.

WASHINGTON, June 8.—If, as now seems probable, the first session of the Fifty-fourth congress this week it will be the shortest so-called "long session" since that of the Thirty-fifth congress and one of the shortest in the history of the government. This record is probably partly due to the political difference between the senate, house and President which have forestalled agreements on many lines of legislation and partly to the determination with which the Republican leaders in the house have

carried into effect Speaker Reed's caucus prediction that the congress would be a do-nothing assembly.

It is impossible to give the exact details of the bills or the grand total of appropriations made by this congress, which aggregate about a half a billion dollars, and the disbursements authorized during the session will be discussed hereafter by the chairman, Cannon, of the appropriations committee, and ex-Chairman Sayers from the points of view of their respective parties.

One of the most bitterly contested fights which has occurred has cropped out from the provisions of the Indian and District of Columbia bills for government aid to church schools, a feature which still holds both bills in conference.

Some of the most important bills prepared by the committee were not given a hearing in either house or passed but one house and will be on the calendar for consideration during the short session if their supporters are able to secure time for them. Among the most important of these are: The Lodge bill for an educational test for immigrants, with the Corliss amendment to prevent the invasion of Canadian day laborers; the Phillips industrial commission bill, the Curtis bill to lessen the number of crimes for which the death penalty can be imposed by United States courts, the bankruptcy bill and the Pickler pension bill, all of which were passed by the house.

THE SAENGERFEST.

The Great Event Opens in Pittsburgh. Many Thousand Visitors.

PITTSBURGH, June 8.—Welcome, singers, a hearty welcome. Pittsburgh is extending most cordial and enthusiastic welcome greeting to all those who come from every section of the land to participate in the great festival of music and song at the national Saengerfest of the North American Saengerbund, which opens here. The great event will open this evening with a grand reception concert in Music hall, given by the singers of Pittsburgh and Allegheny in honor of their guests.

Many delegates and visitors have already arrived, but hundreds and thousands of singers and visitors will arrive in Pittsburgh today, coming on every train which enters the city, from north, south, east and west. Everything possible for their pleasure and comfort during their stay here has been arranged by the German citizens who have had the matter in charge.

TROLLEY CAR RAN AWAY.

More Than 100 Passengers Lives Were Imperilled.

NEW YORK, June 8.—An overloaded trolley car ran away down a long incline on the Nassau street railway extending to Coney island when the tide of travel was at its height. More than 100 passengers were put in peril of their lives. One lad was killed outright, falling on his head and crushing it. Twenty were bruised and battered in a horrible fashion. A score or more were slightly hurt.

Among the dead and injured are: Dead: Unknown Russian boy, 12 years old skull crushed: Probably fatally injured: Lena Bleckman of New York, Mrs. Mary Evans of Brooklyn and Leonard Forte of Brooklyn.

One Hundred and Fifty Natives Killed.

LONDON, June 8.—A dispatch to The Times from Bulawayo, dated June 6 (Saturday), says: The American scout, Burnham, has reported that he rode into an impi of 800 Matabele. A column was sent out, which attacked and routed the impi, killing 150 natives. Numbers of Martini repeating rifles were captured.

Ejectment Suit Against Chicago.

CHICAGO, June 8.—David W. Keen, who owns some valentine scrip, began ejectment proceedings against the city of Chicago, the Chicago public library and the Grand Army hall and memorial association. The plaintiff claims to be the owner of the fee of the land upon which the public library now stands.

General Dequesada Dead.

NEW YORK, June 8.—General Rafael Dequesada died in his apartments in the Hotel Endicott yesterday. He was 59 years old. By his death Cuba loses one of her best and ablest friends. When the ten years' war began in Cuba Dequesada at once enlisted against Spain. He was made a general and fought all through the revolution.

Threw a Bomb Into the Crowd.

BARCELONA, June 8.—A bomb was thrown into the crowd during the Corpus Christi procession and its explosion resulted in the killing of six persons and the injury of 50. The perpetrator of the deed is as yet unknown, and his motive is equally a mystery.

Wiredrawers Adjourn.

CLEVELAND, June 8.—The Federated Association of Wiredrawers has finished its annual meeting. It will meet next year in Cincinnati.

MANY SEVERE STORMS.

Much Damage Done at St. Paul and Other Places.

MANY PEOPLE NARROWLY ESCAPED.

Severe Storms Prevailed Throughout Wisconsin, Illinois, Iowa, Kansas, South Dakota and Michigan—Several Persons Were Killed.

CHICAGO, June 8.—Severe storms prevailed throughout Wisconsin, Illinois, Iowa, Kansas, Nebraska, South Dakota and Michigan with heavy rain and in several sections with cyclonic manifestations. Three great storms passed over this city accompanied with heavy rains and hail. Hail stones fell so thick in some places in this vicinity that they could be taken up by the shovelful. After the rain residents of Hyde Park picked up in one spot nearly a peck of shells and gravel. A sailboat was capsized on the lake by the high winds and its four occupants barely escaped drowning.

At Peoria a heavy rain did considerable damage. At the Union stockyards the storm played havoc. Basements and first floors were flooded and the big packinghouse firms were heavy losers. Hundreds of windows were blown in and the rain entering spoiled tons of beef which had been prepared for canning.

At Virgil, S. D., a cyclone leveled a number of houses. Irvin Daly was seriously injured. Four persons were drowned and considerable damage to property done at Leavenworth, Kan., Springfield, Ill., was visited by one of the most violent rainstorms that has been known there for years. Considerable damage was done. Chadron, Neb., was visited by a terrific storm. Trains on all lines are delayed by washouts.

At Barab, Wis., heavy washouts occurred and train service is demoralized. A special from St. Paul, Neb., estimates the losses resulting from the severe floods of yesterday at \$100,000 in Howard county alone. Two large bridges over the North Loup river were swept away, and many smaller ones.

THE STORM IN ST. PAUL.

Street Railway Traffic Suspended—Much Damage Done.

ST. PAUL, June 8.—The storm damage in this city was severe, the city railway bridge the principal sufferer. About one mile of the interurban line between the two cities was so badly damaged as to entirely stop street railway business until today. The storm was general throughout the southern part of the state. Luverne, in the southern part of the state, being badly flooded and heavy damage done. The storm extended over into South Dakota, where considerable damage was done.

At Bird Island, Minn., five and one-half inches of water fell, and a great deal of grain was drowned out. A Luverne (Minn.) special says: Last night citizens were kept busy rescuing people who live on the river bottom and many narrow escapes are reported. Fred Berg and James Jacobs were capsized in a boat at midnight while trying to rescue the family of M. Gillard. The boys were washed against some trees, where they remained till morning. John Kittelson, while fording the river, was washed from his horse and drowned. Several farmhouses were demolished and hundreds of cattle, sheep and hogs perished. The Omaha and Burlington roads have large crews at work, but it will be several days before trains from the east will reach this point. The estimated loss in this county is \$20,000.

Terrific Hailstorm in Kansas.

WICHITA, June 8.—A terrific hailstorm has destroyed thousands of acres of fine growing corn in Southern Kansas with hail stones, cutting stalks off like a mowing machine. The storm was apparently general all over Southern Kansas, and extended over a part of Oklahoma.

Four Drowned by a Cloudburst.

LEAVENWORTH, Kan., June 8.—Four persons were drowned and considerable damage to property done by a cloudburst which has visited this section. Water fell in torrents, doing much damage.

BANQUET TO FITZHUGH LEE.

Gomez Continues to March Westward. A New Expedition.

HAVANA, June 8.—General Fitzhugh Lee, the United States consul general here, paid a visit to the civil governor and his secretary, the Marquis Palmerola. The courtesy of General Lee is winning him many friends. Mr. Ramon O. Williams, his predecessor, sails for the United States on Thursday.

Mr. Eckers, correspondent of the London Times, gave a banquet at the Hotel Inglaterra in honor of General

Lee. He was assigned by the English, French and German consuls and several local officials.

General Gomez continues his westward march through the province of Puerto Principe. It is positively asserted that he has passed the trocha at Jucare.

Documents exhibited by the Censor announce the death recently at Meilla, in the province of Santa Clara, of Major Calderon.

Rafael Cabrera is reported to have safely landed an expedition at Punta de Ganado, near Navitas, with 1,000 rifles and 500,000 cartridges. Doctor Joaquin Castillo arrived from New York and had a conference with prominent Cubans here and two of the leaders of the unfortunate Bermuda expedition, possibly for the purpose of planning a new expedition.

The Walling Trial.

NEWPORT, Ky., June 8.—The commonwealth in the Walling trial consumed Saturday in the examination of Chief of Police Phil Deitch of Cincinnati, Sheriff Jule Plummer of Campbell county, Mayor John A. Caldwell of Cincinnati, Detective Herman Witte and Detective Jack McDermott of Cincinnati. Some of the most important testimony by Colonel Deitch has been ordered by the court to be withheld from the jury until the court hears the question debated by counsel and gives his decision.

EAST LIVERPOOL, O., MONDAY, JUNE 8

For President,
WILLIAM MCKINLEY,
Of Ohio.

MCKINLEY AND REED.

Is there a possibility that this will be the head of the Republican ticket in the coming contest? Will Reed be satisfied with a secondary position? Are the advantages to be secured by his acceptance sufficiently powerful and desirable to induce him to cast aside his ambition for first place on the ticket? These are pertinent questions. Who can answer them satisfactorily?

THAT LYING CORRESPONDENT.

HE MISREPRESENTS THE PITTSBURG DISPATCH, and has caused this city to be looked upon in an unfavorable light, owing to his absolute disregard for truthfulness. His report of the lightning destroying very valuable property at Thompson's pottery yesterday is about on a par with his general make-up of untruthfulness and unreliability. You know him.

GROVER.

And now Grover is made to say that, rather than support a free silver Democrat on a free silver platform, he, in company with members of his cabinet, will vote for McKinley. Will there be a bolt in the Democratic party on the money question? Will there be a bolt in the Republican party on the money question? Who can answer? In the words of the immortal bard, "Where are we at?"

THE COWARD.

He is on a par with the slanderer, eavesdropper and perjurer. We have a few of him in East Liverpool, in common with other cities of like size and enterprise. He seems to be a necessity, in order that decent citizens may shine the brighter by comparison. He borrows from everybody he can thus victimize. He never pays his debts. If in business, all goods are sent to him over the C. O. D. line. You know him. Everybody knows him. He is branded. Selah.

TURTLES ON TOAST.

The associated press news of this morning declare that "shells, gravel, fishes and turtles" fell upon the streets of Chicago yesterday, during the storm. An interested observer asserts that this was caused by "air vacuums, whirlwinds and straight winds, which have prevailed throughout the west for a week past." The wise man does not assert that the turtles have been floating around in space for that time, but such is the impression conveyed. If they are soft shells, the next query would be as to their size, state of freshness, and their fitness to be served up on toast. If all O. K., epicures of East Liverpool desire to have a storm of a similar nature visit this city.

OUR FIRE DEPARTMENT.

It is a marked and flattering success, viewed from the efforts made at the fire of this morning, and is the subject of general commendation. It is deserving of all the good things said of it, and they are numerous, as the editor can vouch for as coming under his personal hearing, while taking in the fire from different standpoints. Tom Bryan did a gallant and courageous act in driving his handsome grays through the flame, when it became necessary to trail the hose through the alley, in order to expedite the hurling of water upon the buildings, from a favorable standpoint. His face and hair were singed and scorched in the rush, but he stuck to his post like a hero. The same courage was shown by the men working from the Sixth street front, they taking desperate risks in entering the burning building, in order to secure better vantage ground against the fire. There was not a laggard or shirk engaged, and the department should be held in the highest respect and esteem by our citizens. Let the members continue to do their duty as they did it today, and they will have friends on every hand.

THE STORM.

It was indeed a storm, in so far as vivid lightning was concerned, and

THEY HAVE BEEN GREAT SELLERS

No Stickers, as we Call Them.
Stickers are Poor Sellers.

This is the reason many merchants find themselves at the end of the season with too many stickers, and their suits carried over from one season until other seasons, accumulating what is known as old stock or over stock of undesirable goods.

We are Making a
Special Sale This Week.

WHAT WE CALL SELLERS—Suits that have been sellers with us this season, nobby, stylish, up-to-date goods. Of these suits you may find one, two or three of a style left.

Suits that are worth and sold by dealers at
\$13.00, \$14.00, \$15.00, \$16.00, \$17.

Choice \$10.00

These prices will knock out stickers, poor sellers, sweat-shop-made clothing. The greatest sale of suits in the city.

COME AT ONCE.

Take Advantage of these Prices.

This sale continues as long as these suits last. Your opportunity to buy stylish goods. Prices that will bring new customers to our store.

JOSEPH BROS.

many residents of East Liverpool will coincide with this statement. A lady and gentlemen in this city were seated in their cosy home when the storm broke forth. The lady was seated in the dining room and the gentleman upon the porch, the latter deeply interested in noting the fury of the elements and commenting upon the power and brilliancy of the lightning. The wife, made nervous by the repeated flashes, urged her partner to come in the house. The latter complied and sat down near the open doorway, back to the door and face toward a side window, the wife facing the door, but farther back in the room. Then came a flash which blinded both man and wife, the former involuntarily bowing his head upon the table in front of him, while the latter sat gazing at the door, as if spell-bound. The lady states that she was confident that the lightning struck just below the house, as she noted what appeared like a ball of fire immediately in front of the residence. Both man and wife complained of severe pains in the upper part of the body for several minutes after the flash, and there was a sudden closing of doors and putting down of windows. The call was fully as close as the couple desired, and made them very nervous for the time being.

HONEST MONEY.

What constitutes honest money? A purchasing medium which is good for one hundred cents on the dollar, not only in this nation, but all over the civilized world. Should this medium be gold or silver? It depends entirely upon the credit and standing of the nation which makes the issue. If the credit of the nation is A 1, and if that nation places her stamp upon the circulating medium, guaranteeing its redemption in gold, whenever and wherever presented, is not silver or paper, issued by said government, just as good as gold? These are pertinent questions, of vital import to the masses which constitute the nation. Gold is good for its face at any time. But if a nation, hampered by debt and outstanding obligations, sees fit to pass a law granting the unlimited coinage of silver, will not the result be that such circulating medium will become, to a large extent, worthless, and will it not prove an absolute curse to the masses whom it professes to be friendly to? Is there a combination medium which can be made a safe and sure one? Can a limited circulation of silver be enacted by law and held within such bounds that safety to the monied and industrial interests of the nation will be assured? Where is the

Solomon who will arise in this nation at the present time and solve this vital problem? The present aspect of affairs indicate that the money question will be an all absorbing feature in the coming presidential campaign, with the outlook that the Democratic convention will make a bid for popular votes through the medium of the unlimited coinage of silver, while the Republican convention will aim to look to the best interests of the nation through the medium of honest money. The indications are that honest money, backed by protection to home and home industries, will win for the Republican party the greatest victory ever occurring in the history of the United States.

Picked Up a Live Wire.

NORWALK, O., June 8.—Two young men named Ackerman of North Milan were severely shocked and burned by a telephone wire, which broke and fell into their yard. One picked it up and was thrown down. The other went to his assistance and was knocked senseless.

Tried to Lynch Him.

XENIA, O., June 8.—At Cedarville, Rome Murray, while drunk, tried to kill his wife and baby with a hatchet. A crowd of enraged citizens tried to lynch Murray, but he was put in jail at Xenia before they could get him.

The Weather.

Partly cloudy with local thunder storms; fresh and brisk southerly to westerly winds; cooler in western portion.

CONGRESS UNCERTAIN,

But Likely to Adjourn Some Time This Week.

THE HOUSE FAVORS ADJOURNMENT.

The Senate in Doubt About Getting a Quorum—Many Members Leaving the City—Very Little Important Business Done at the Session.

WASHINGTON, June 8.—The house managers have parliamentary machinery in operation which will enable them to secure prompt action on every proposition submitted by the conferees on the five remaining appropriation bills looking to an adjustment of the differences between the two houses. The difference between the two houses on the four supply bills (the sundry civil, naval, Indian and District of Columbia) are radical, but by mutual concessions the house leaders believe the differences can be adjusted so as to permit an adjournment Tuesday or Wednesday.

In the sundry civil bill the house has thus far persistently refused to accept the amendments for public buildings at the capitols of Utah, Idaho, Wyoming and Montana, and the additions for the public buildings at Kansas City, Savannah, Ga., and Camden, N. J.

In the naval bill the house has remained equally firm in its insistence on four battleships and \$425 per ton as the maximum cost of armor plate. To both of these items the senate has declined to agree and refused a compromise. The senate insists on two battleships and a reduction of the cost of armor plate to \$320 per ton.

In the Indian bill, which has no less than four times voted for the immediate termination of appropriations for sectarian Indian schools as against the senate's proposition to allow them to run until 1897, the house declined to accept as a compromise their termination in 1897. On the question of sectarian schools it does not seem probable that the house can be induced to yield. The probabilities are that the other items will be compromised, saving and excepting the public building items in the sundry civil bill, which it seems likely the senate will eventually abandon.

The main difficulty in the way of an adjournment by the middle of the week seems to lie at the senate end of the capitol, where a single senator can obstruct matters, if he chooses, until the quorum fails, when all chance of a sine die adjournment before the St. Louis convention will disappear. An intense desire of members at both ends of the capitol to get away, however, will do much toward inducing those who are disposed to raise factions in opposition to yield their individual desires to accomplish this result.

GENERAL DEFICIENCY BILL.

May Cause Some Delay in the Senate. Senators Leaving.

WASHINGTON, June 8.—Whether the senate shall be able to conclude the work of the session this week will probably depend upon whether a quorum can be obtained. Some senators are opposed to the passage of the new general deficiency bill with the French spoliation claims and the store and supply claims allowed under the Bowman act omitted. Senator Harris makes no secret of his intention to demand the restoration of these items to the bill, and says that he will not consent to its passage without them except upon an aye and nay vote. If he insists on this a voting quorum will be necessary. Several senators have announced their purpose of leaving the city early in the week, and many others will depart about the middle of the week for St. Louis. Under these circumstances it is possible that adjournment may be postponed until after the Republican convention, though there will be a very general effort to prevent this.

The other appropriation bills which have not finally been disposed of are: The Indian, the District of Columbia, the sundry civil, the naval and the post-office.

LITTLE BUSINESS TRANSACTED.

Some Important Bills Passed, But Many Still on the Calendar.

WASHINGTON, June 8.—If, as now seems probable, the first session of the Fifty-fourth congress this week it will be the shortest so-called "long session" since that of the Thirty-fifth congress and one of the shortest in the history of the government. This record is probably partly due to the political difference between the senate, house and President which have forestalled agreements on many lines of legislation and partly to the determination with which the Republican leaders in the house have

carried into effect speaker Reed's caucus prediction that the congress would be a do-nothing assemblage.

It is impossible to give the exact details of the bills or the grand total of appropriations made by this congress, which aggregate about a half a billion dollars, and the disbursements authorized during the session will be discussed hereafter by the chairman, Cannon, of the appropriations committee, and ex-Chairman Sayers from the points of view of their respective parties.

One of the most bitterly contested fights which has occurred has cropped out from the provisions of the Indian and District of Columbia bills for government aid to church schools, a feature which still holds both bills in conference.

Some of the most important bills prepared by the committee were not given a hearing in either house or passed but one house and will be on the calendar for consideration during the short session if their supporters are able to secure time for them. Among the most important of these are: The Lodge-McCall bill for an educational test for immigrants, with the Corliss amendment, to prevent the invasion of Canada by laborers; the Phillips industrial commission bill, the Curtis bill to lessen the number of crimes for which the death penalty can be imposed by United States courts, the bankruptcy bill and the Pickler pension bill, all of which were passed by the house.

THE SAENGERFEST.

The Great Event Opens in Pittsburgh. Many Thousand Visitors.

PITTSBURG, June 8.—Welcome, singers, a hearty welcome. Pittsburgh is extending most cordial and enthusiastic welcome greeting to all those who come from every section of the land to participate in the great festival of music and song at the national Saengerfest of the North American Saengerbund, which opens here. The great event will open this evening with a grand reception concert in Music hall, given by the singers of Pittsburgh and Allegheny in honor of their guests.

Many delegates and visitors have already arrived, but hundreds and thousands of singers and visitors will arrive in Pittsburgh today, coming on every train which enters the city, from north, south, east and west. Everything possible for their pleasure and comfort during their stay here has been arranged by the German citizens who have had the matter in charge.

TROLLEY CAR RAN AWAY.

More Than 100 Passengers Lives Were Imperilled.

NEW YORK, June 8.—An overloaded trolley car ran away down a long incline on the Nassau street railway extending to Coney island when the tide of travel was at its height. More than 100 passengers were put in peril of their lives. One lad was killed outright, falling on his head and crushing it. Twenty were bruised and battered in a horrible fashion. A score or more were slightly hurt.

Among the dead and injured are: Dead: Unknown Russian boy, 12 years old skull crushed. Probably fatally injured: Lena Bleckman of New York, Mrs. Mary Evans of Brooklyn and Leonard Forte of Brooklyn.

One Hundred and Fifty Natives Killed.

LONDON, June 8.—A dispatch to The Times from Bulawayo, dated June 6 (Saturday), says: The American scout, Burnham, has reported that he rode into an impi of 900 Matabele. A column was sent out, which attacked and routed the impi, killing 150 natives. Numbers of Martini repeating rifles were captured.

Ejectment Suit Against Chicago.

CHICAGO, June 8.—David W. Keen, who owns some valentine scrip, began ejectment proceedings against the city of Chicago, the Chicago public library and the Grand Army hall and memorial association. The plaintiff claims to be the owner of the fee of the land upon which the public library now stands.

General Deceased Dead.

NEW YORK, June 8.—General Rafael Dequesada died in his apartments in the Hotel Endicott yesterday. He was 59 years old. By his death Cuba loses one of her best and ablest friends. When the ten years' war began in Cuba Dequesada at once enlisted against Spain. He was made a general and fought all through the revolution.

Throw a Bomb Into the Crowd.

BARCELONA, June 8.—A bomb was thrown into the crowd during the Corpus Christi procession and its explosion resulted in the killing of six persons and the injury of 50. The perpetrator of the deed is as yet unknown, and his motive is equally a mystery.

Wiredrawers Adjourn.

CLEVELAND, June 8.—The Federated Association of Wiredrawers has finished its annual meeting. It will meet next year in Cincinnati.

MANY SEVERE STORMS.

Much Damage Done at St. Paul and Other Places.

MANY PEOPLE NARROWLY ESCAPED.

Severe Storms Prevailed Throughout Wisconsin, Illinois, Iowa, Kansas, South Dakota and Michigan—Several Persons Were Killed.

CHICAGO, June 8.—Severe storms prevailed throughout Wisconsin, Illinois, Iowa, Kansas, Nebraska, South Dakota and Michigan with heavy rain and in several sections with cyclonic manifestations. Three great storms passed over this city accompanied with heavy rains and hail. Hail stones fell so thick in some places in this vicinity that they could be taken up by the shovelful. After the rain residents of Hyde Park picked up in one spot nearly a peck of shells and gravel. A sailboat was capsized on the lake by the high winds and its four occupants barely escaped drowning.

At Peoria a heavy rain did considerable damage. At the Union stockyards the storm played havoc. Basements and first floors were flooded and the big packinghouse firms were heavy losers. Hundreds of windows were blown in and the rain entering spoiled tons of beef which had been prepared for canning.

At Virgil, S. D., a cyclone leveled a number of houses. Irvin Daly was seriously injured. Four persons were drowned and considerable damage to property done at Leavenworth, Kan. Springfield, Ills., was visited by one of the most violent rainstorms that has been known there for years. Considerable damage was done. Chadron, Neb., was visited by a terrific storm. Trains on all lines are delayed by washouts. At Barabaz, Wis., heavy washouts occurred and train service is demoralized.

A special from St. Paul, Neb., estimates the losses resulting from the severe floods of yesterday at \$100,000 in Howard county alone. Two large bridges over the North Loup river were swept away, and many smaller ones.

THE STORM IN ST. PAUL.

Street Railway Traffic Suspended—Much Damage Done.

ST. PAUL, June 8.—The storm damage in this city was severe, the city railway bridge the principal sufferer. About one mile of the inter urban line between the two cities was so badly damaged as to entirely stop street railway business until today. The storm was general throughout the southern part of the state. Laverne, in the southern part of the state, being badly flooded and heavy damage done. The storm extended over into South Dakota, where considerable damage was done.

At Bird Island, Minn., five and one-half inches of water fell, and a great deal of grain will be drowned out.

A Laverne (Minn.) special says: Last night citizens were kept busy rescuing people who live on the river bottom and many narrow escapes are reported. Fred Berg and James Jacobs were capsized in a boat at midnight while trying to rescue the family of M. Gillard. The boys were washed against some trees, where they remained till morning. John Kittelson, while fording the river, was washed from his horse and drowned. Several farmhouses were demolished and hundreds of cattle, sheep and hogs perished. The Omaha and Burlington roads have large crews at work, but it will be several days before trains from the east will reach this point. The estimated loss in this county is \$20,000.

Terrific Hailstorm in Kansas.

WICHITA, June 8.—A terrific hailstorm has destroyed thousands of acres of fine growing corn in Southern Kansas with hail stones, cutting stalks off like a mowing machine. The storm was apparently general all over Southern Kansas, and extended over a part of Oklahoma.

Four Drowned by a Cloudburst.

LEAVENWORTH, KAN., June 8.—Four persons were drowned and considerable damage to property done by a cloudburst which has visited this section. Water fell in torrents, doing much damage.

BANQUET TO FITZHUGH LEE.

Gomez Continues to March Westward. A New Expedition.

HAVANA, June 8.—General Fitzhugh Lee, the United States consul general here, paid a visit to the civil governor and his secretary, the Marquis Palmerola. The courtesy of General Lee is winning him many friends. Mr. Ramon O. Williams, his predecessor, sails for the United States on Thursday.

Mr. Eckers, correspondent of the London Times, gave a banquet at the Hotel Inglaterra in honor of General

Lee. He was assigned by the English, French and German consuls and several local officials.

General Gomez continues his westward march through the province of Puerto Principe. It is positively asserted that he has passed the trocha at Jucare.

Documents exhibited by the Censor announce the death recently at Meilla, in the province of Santa Clara, of Rafael Cabrera is reported to have safely landed an expedition at Punta de Ganado, near Neuquitas, with 1,000 rifles and 500,000 cartridges. Doctor Joaquin Castillo arrived from New York and had a conference with prominent Cubans here and two of the leaders of the unfortunate Bermuda expedition, possibly for the purpose of planning a new expedition.

The Walling Trial.

NEWPORT, Ky., June 8.—The commonwealth in the Walling trial consumed Saturday in the examination of Chief of Police Phil Deitsch of Cincinnati, Sheriff Jule Plummer of Campbell county, Mayor John A. Caldwell of Cincinnati, Detective Herman Witte and Detective Jack McDermott of Cincinnati. Some of the most important testimony by Colonel Deitsch has been ordered by the court to be withheld from the jury until the court hears the question debated by counsel and gives his decision.

EGYPTIAN TROOPS WIN.

The First Battle of the Nile Campaign Fought.

THE DERVISHES PUT TO ROUT.

Egyptians and Soudanese Displayed Great Nerve—The Dervishes Lose 1,000 Men, Among Them Emir Hamuda, Their Commander.

FIRKET, Egypt, June 8.—This point has been taken by Egyptian troops and their manner of acquiring themselves in this, the first engagement of the Nile campaign, has given great satisfaction to the British officers in command of them. The movement was a surprise, as it seemed to have been determined to hold Akashoh as an outpost until the season is passed and the period arrived for the advance upon Dongola in the latter part of August or in September. The force responded promptly to orders, however, and was soon under way for this point. The distance is 20 miles, and it took the whole night to accomplish the march.

The greatest secrecy has been maintained as to all the arrangements, and precaution was taken to prevent the news of the advance from leaking out. The night long march was pursued in absolute silence. In consequence the arrival of the Egyptians at the Dervish camp took the enemy completely by surprise. They quickly rallied, however, and rushed to their arms. Far from being routed in the first skirmish of the attack they stood to their positions and made a stubborn defense of the camp for an hour and a half.

The Dervishes were finally put to rout by a flank movement executed by the cavalry. Seeing themselves in danger of being surrounded, the forces of the Khalifa took flight to the southward, towards Suarda, pursued by the cavalry. Suarda is nearly a hundred miles south of here, but it is strongly held by a force of several thousand Dervishes.

Reports received indicate that the loss to the Dervishes will amount to 1,000 men. Among those killed is the Emir Hamuda, who was their commander, besides many important chiefs. Hamuda was in command of the larger force at Suarda. He was of the tribe of Habbani, and was well known to Slatin Pasha while the latter was a captive of the Khalifa in the Sudan. Slatin has described him as a great favorite with the Khalifa, who promoted him to the rank of emir because he left his own tribe when the insurrection first broke out to serve the Khalifa personally.

It is probable that the taking of Firket was decided upon owing to the doubtful strength of Akashoh as an outpost, surrounded as it is by low hills, the taking of which would make Akashoh a deathtrap. The finishing of the railroad line from Sarra has been rapidly pushed since the expedition was determined upon. By extending it to Firket the worst cataract will be turned and early advantage can thus be taken of the rise in the Nile at the end of July for water transport to Dongola.

The officers in command of the Egyptian force express great gratification at the conduct in this morning's fight of the Egyptians, about whom some doubt have been felt, and the Soudanese who have been looked to with confidence for good fighting. Both the Egyptians and the Soudanese displayed great steadiness and dash. The Egyptian loss in the fight was 20 killed and 30 wounded. Hundreds of Dervishes were taken prisoners.

SCOTCH IRISH ELECT OFFICERS.

Robert Bonner Re-Elected President For the Eighth Time.

HARRISBURG, June 8.—At the session of the Scotch-Irish convention here Dr. Stewart, chairman of the nominating committee, reported the selection of the following officers for the ensuing year: President, Robert Bonner of New York; vice president, Rev. Dr. John McIntosh of Philadelphia; first vice-president-at-large, T. T. Wright, Nashville, Tenn.; second vice-president-at-large, Rev. J. H. Bryson, D. D., Huntsville, Ala.; secretary, A. C. Floyd of Chattanooga, Tenn.; treasurer, John McIlhenny of Philadelphia. The report was accepted. The state vice-presidents and secretaries were re-elected, Colonel A. K. McClure of Philadelphia as the state vice-president and Mr. M. W. McClary of Harrisburg as the state secretary for Pennsylvania.

THE REPUBLICAN CONVENTION.

The Hall Ready to Be Dedicated—Arrangements Nearly All Made.

ST. LOUIS, June 8.—Up to date there are fully five times as many out of town newspaper correspondents in St. Louis who have come to the national convention than politicians. Less than half a dozen politicians of national repute have put in an appearance. It is not expected there will be much real activity in a political way until the arrival of M. A. Hanna, Major McKinley's manager, with his forces. He is

expected tomorrow and also is from Thomas C. Platt, who is coming to look after the interests of Levi P. Morton. It is also said that ex-Governor Gear of Iowa will put in an appearance before the middle of the week with a corps of assistants to engage in the preliminary skirmish in behalf of Senator William B. Allison.

The bill posting brigade of the Hawkeye state candidate is here, and as a result lithographs and portraits of Senator Allison have been hung in shop windows and pasted upon the dead walls of the town.

All the arrangements for handling the crowd have been completed. The convention hall has had all the finishing touches and will be dedicated with pomp and ceremony this week.

FILED HIS ANNUAL REPORT.

Dairy and Food Commissioner McNeal Gives the Year's Figures.

COLUMBUS, June 8.—Dairy and Food Commissioner McNeal filed his annual report in the office of the governor. It shows the cost of operating the department for the year ending Feb. 15, 1896, was a little more than \$50,000, of which \$22,600 was appropriated by the legislature, and of the rest \$11,000 was left over from last year, and \$17,570 was the proceeds from fines, etc., collected during the year.

On the work of the department Dr. McNeal says: "It is within the pale of fact to assert that more work has been done in the prevention of fraud in the sale of food and drug products, and in the preservation of the public health thereby in the state of Ohio during the past two years than in all the other states of the Union combined."

Seven hundred and six pure food cases were placed upon the docket of the department for the year. Sixty per cent of the total number of samples of food and drugs analyzed were found to be not up to the standard.

FEARS HE WAS MURDERED.

A Young Man Believed to Have Met With Foul Play.

WINCHESTER, O., June 8.—Nathan A. Marlatt, son of Mrs. Hiram Marlatt, a widow living three miles north of here, has disappeared, and fears of murder are entertained. Marlatt is an artist, 35 years old, and until last November lived at Nelsonville. He then went to Erlanger, Ky. His last letter to his mother was in February, from Williams-town, Ky. In it he said he had secured a situation in Cincinnati. Nothing has been heard of him since.

Miss Etta Marlatt, a sister of the missing young man went to the morgue in Cincinnati some time ago to view the body of a young man found in the Ohio river. Owing to the condition of the corpse she was unable to identify it as her brother, although the clothing was similar to that worn by him. Marlatt was engaged to be married to a girl in Dayton, O. When last seen he had a gold watch and chain and a diamond ring.

FOUR PRISONERS BREAK JAIL.

One of Them Was Tired Waiting for His Trial.

WILMINGTON, O., June 8.—Four prisoners broke jail in the early hours of this morning by cutting through the boiler lining wall of the jail and then removing the bricks from the main wall. Those escaping were E. A. Holton, charged with horse-stealing, and Banner Morgan, George Bainter and Robinson, charged with burglary.

Holton left a note saying that he had grown tired waiting for his trial and had concluded to leave. He also said that, although the "grab was good," he wanted a change of diet, and would perhaps return in time for his trial, but was not certain. No trace of the escaped prisoners has been found.

Majority For Free Silver.

CINCINNATI, June 8.—The Enquirer's tabulation of the delegate to the Ohio Democratic state convention at Columbus, June 23, shows that up to last night 30 of the 88 counties select a free silver delegate with the following results: Two hundred and eleven instructed for free silver, 11 for gold and 23 uninstructed. The primaries will be held in Cincinnati.

Barn Burned by Tramps.

ELVIRA, O., June 8.—Tramps set fire to the barn of Henry Chappell, a farmer living near here. Chappell's son-in-law, William Hobill, discovered the fire, and when he went to the barn he was shot and dangerously wounded by one of the tramps. Mr. Chappell went into the barn to release some cattle and was overcome by smoke and burned to death. The tramps escaped.

A List of Damage Suits.

XENIA, O., June 8.—Harvey Hupman filed suit against Mrs. John B. Allen, widow of the late Hon. J. B. Allen, and one of the wealthiest property owners of the city, for \$50,000 damages for alleged injuries sustained by falling into an open coal chute on the pavement in front of the Allen block. Damage suits aggregating over \$50,000 have been filed in the courts in the last 30 days.

Kurds Killing Railway Employees.

ATHENS, June 8.—An official report states that a band of Kurds has attacked the employees of the railway running from Smyrna to Karaba, killing many, including the British, French and German engineers.

THE VENEZUELAN BOUNDARY.

The Commission May Not Reach a Decision for Some Time.

WASHINGTON, June 8.—The prediction by the London Speaker of an early decision by the Venezuelan boundary commission respecting the boundary line between Venezuela and British Guiana was not shared by those conversant with the facts in the case. Justice Brewer, the president of the commission, does not think the commission will render an opinion at an early day. The Venezuela case recently presented to the commission was in the Spanish text and this is being translated into English, and but a portion of it has been received from the translators.

The evidence contained in the Venezuelan side of the controversy may be merely cumulative or it may contain some facts which demand further investigation which would be a factor in delaying the preparation of the report. Besides this there is talk among the members of the commission looking to the securing of summer quarters at some northern resort, which is another indication that an early decision is not at all likely. Minister Andrade of Venezuela does not look for a decision before the fall.

NEW MEXICAN AGREEMENT.

Troops May Cross the Boundary Line in Pursuit of Indians.

WASHINGTON, June 8.—Secretary Olney and Mr. Romero, minister for Mexico, have signed an agreement whereby the troops of either the United States or Mexico may cross the boundary line in hot pursuit of hostile Indians. This is the third time the two governments have entered into such an agreement, the last expiring in 1890.

The occasion for this new arrangement is found in the operations on the border of Kid's band of Indians. Now that the United States troops may continue on a hot trail it is hoped that they will make short work of this notorious outlaw.

REMOVED GENERAL BORRERO.

The Spanish Government Takes Him From Command.

MADRID, June 8.—Lieutenant General Borrero, who picked a quarrel with Marshal Campos and was challenged to fight a duel, has been removed from the command of the Sixth army corps. The government was forced to this action by the pressure of public opinion and the press. General Borrero is succeeded by General Ciriza.

The supreme military court met to examine a communication from the minister of war, calling tardily its attention to the accounts of the projected duel published in the Madrid newspapers.

The court will name a military judge and prosecutor to investigate the case with the usual dilatory formalities required to obtain from the senate permission to proceed against Marshal Campos and General Borrero, they being members of the senate.

WARSHIPS FOR JAPAN.

United States Gets Contracts For Two New Vessels.

SAN FRANCISCO, June 8.—S. Asano, one of the chiefs in the naval department of Japan, will arrive in San Francisco on the mail steamer from the Orient with contracts in his possession for the building of two warships for Japan. One of these, it is understood, will go to the Union iron works, in this city, and the other to the Cramps company in Philadelphia.

Another important matter connected with the coming visit of Asano to the Pacific coast is the opening of a new steamship line between Tokio and the Pacific coast.

Barred From the Mails.

WASHINGTON, June 8.—Postmaster General Wilson has issued a lottery order to all postmasters barring the mails against the Mutual Debiture company of Iowa, with headquarters in Chicago and Emporia, Kan., and its officers. These are W. E. Coon, president; J. S. McIntyre, secretary and treasurer. The latter's personal mail also is barred.

The Filled Cheese Bill.

WASHINGTON, June 8.—The president has signed the filled cheese bill, the Arizona funding bill, the fortifications appropriation bill and the bill granting right of way through the Grand Canon forest reservation.

Gladstone on the Turkish Government.

LONDON, June 8.—Mr. Gladstone has written a reply to a correspondent, in which he says: "In my opinion the Turkish government is the greatest scourge of mankind and is the greatest scandal and disgrace to religion, including the religion of Mahomet, on the face of the earth."

The Disturbance Still Continues.

ATHENS, June 8.—Advices have been received here from the island of Crete to the effect that the disturbances in the various parts of the island continue. The Turkish troops are burning villages.

Offered to Furnish Another Ironclad.

MADRID, June 8.—The municipal authorities of Seville have offered to furnish the government with a second ironclad to be built at Genoa.

Alfred Fritzsche, representative of a sprinkler system company, returned to Cleveland Saturday evening. He said that he had conferred with a number of manufacturers in regard to placing the system in their works, and that they replied that they would not make any contracts until the presidential contest was settled.

The Virginia was unable to reach Pittsburg on the last trip, owing to the low stage of water. The packet was grounded twice at points below Davis Island dam, and was delayed 24 hours, and did not arrive here until last night. The excursionists from this place, bound for Cincinnati and return, were joined by a party of 21 at Wellsville.

The people of Simm's hill have the laugh on a man who lives in that neighborhood. On Saturday night some boys were playing on top of the hill, when one of the number began to cry murder. His cries were heard by the man, who at once jumped out of bed, grabbed two revolvers and started for the scene. After chasing over the hill awhile, the "ex-captain of the life preservers" returned to his home, of the opinion that some one had fooled him.

CURIOUS MARRIAGE CUSTOMS.

Among Dwarfs of Andaman Island Contracting Parties Climb a Tree.

Some of the customs peculiar to courtship and marriage among the race of dwarfs who inhabit the Andaman island are, according to M. de Quatrefages, who recently published a book called "The Pygmies" about these people, very peculiar. Not the least remarkable of them is the procedure of courtship.

The young man who has made his choice addresses himself to the parents, who never refuse, but send the girl into the forest, where, before day, she conceals herself. The young man must find her.

If he does not succeed, he must renounce all claim to her. The wedding ceremony of these people is equally curious.

M. Quatrefages thus describes it: "The two parties climb two flexible trees growing near each other, which an old man then makes to bend toward each other. When the head of the man touches the head of the girl, they are legally married."

Turning from Asia to Europe, we find a very curious custom prevailing in Roumania. Among the peasantry of this country, when a girl attains a marriageable age her trousseau, which has in the meanwhile been carefully woven, spun and embroidered by her mother and herself, is placed in a painted wooden box.

When a young man thinks of asking to be allowed to pay his attentions to the girl he is at liberty first to open the box, which is always placed in a convenient position, and examine the trousseau. If he is satisfied with the quantity and quality of the dowry, he makes formal application for the girl's hand, but if not he is quite at liberty to retire.

An Army Reminiscence.

"Speaking of cures for insomnia," said an old soldier, "makes me think of our starting out one morning at 7 o'clock, marching 20 miles, and meeting the enemy at 2 o'clock in the afternoon and fighting till 6, and then marching back to where we started from, getting there at 2 o'clock in the morning."

"Some of the men left in camp had made a fire to cook their coffee by and had kept it going through the evening. It was now a big bed of red coals, with an occasional flicker of flame going up from the charred end of a half burned stick. It was a chilly night, and I thought I'd sit down on a log that there was alongside the fire for a few minutes and get warm a little before turning in. The next thing I knew it was 6 o'clock. I had gone to sleep the minute I sat down and had fallen off the log without waking up."

"Now if, as sometimes happens, I find myself inclined to lie awake nights, I just think of the comfort of my present bed as compared with that by the log, and that is enough."—New York Sun.

EGYPTIAN TROOPS WIN.

The First Battle of the Nile Campaign Fought.

THE DERVISHES PUT TO ROUT.

Egyptians and Soudanese Displayed Great Nerve—The Dervishes Lose 1,000 Men, Among Them Emir Hammuda, Their Commander.

FIRKET, Egypt, June 8.—This point has been taken by Egyptian troops and their manner of acquiring themselves in this, the first engagement of the Nile campaign, has given great satisfaction to the British officers in command of them. The movement was a surprise, as it seemed to have been determined to hold Akashah as an outpost until the season is passed and the arrival of the advance upon Dongola in the latter part of August or in September. The force responded promptly to orders, however, and was soon under way for this point. The distance is 20 miles, and it took the whole night to accomplish the march.

The greatest secrecy has been maintained as to all the arrangements, and precaution was taken to prevent the news of the advance from leaking out. The night long march was pursued in absolute silence. In consequence the arrival of the Egyptians at the Dervishes camp took the enemy completely by surprise. They quickly rallied, however, and rushed to their arms. Far from being routed in the first skirmish of the attack they stood to their positions and made a stubborn defense of the camp for an hour and a half.

The Dervishes were finally put to rout by a flank movement executed by the cavalry. Seeing themselves in danger of being surrounded, the forces of the Khalifa took flight to the southward, towards Suarda, pursued by the cavalry. Suarda is nearly a hundred miles south of here, but it is strongly held by a force of several thousand Dervishes.

Reports received indicate that the loss to the Dervishes will amount to 1,000 men. Among those killed is the Emir Hammuda, who was their commander. Besides many important chiefs, Hamud was in command of the larger force at Suarda. He was of the tribe of Habhani, and was well known to Slatin Pasha while the latter was a captive of the Khalifa in the Sudan. Slatin has described him as a great favorite to the rank of Emir because he left his own tribe when the insurrection first broke out to serve the Khalifa personally.

It is probable that the taking of Firket was decided upon owing to the doubtful strength of Akashah as a post, surrounded as it is by low hills, the taking of which would make Akashah a deathtrap. The finishing of the railroad line from Sarra has been rapidly pushed since the expedition was determined upon. By extending it to Firket the worst cataract will be turned and early advantage can thus be taken of the rise in the Nile at the end of July for water transport to Dongola.

The officers in command of the Egyptian force express great gratification at the conduct in this morning's fight of the Egyptians, about whom some doubt have been felt, and the Soudanese who have been looked to with confidence for good fighting. Both the Egyptians and the Soudanese displayed great steadiness and dash. The Egyptian loss in the fight was 20 killed and 20 wounded. Hundreds of Dervishes were taken prisoners.

SCOTCH IRISH ELECT OFFICERS.

Robert Bonner Re-Elected President For the Eighth Time.

HARRISBURG, June 8.—At the session of the Scotch-Irish convention here Dr. Stewart, chairman of the nominating committee, reported the selection of the following officers for the ensuing year: President, Robert Bonner of New York; vice president, Rev. Dr. John McIntosh of Philadelphia; first vice-president-at-large, T. T. Wright, Nashville, Tenn.; second vice-president-at-large, Rev. J. H. Bryson, D. D., Huntsville, Ala.; secretary, A. C. Floyd of Chattanooga, Tenn.; treasurer, John McHenry of Philadelphia. The state vice-presidents and secretaries were re-elected, Colonel A. K. McClure of Philadelphia as the state vice president and Mr. M. W. McAlamy of Harrisburg as the state secretary for Pennsylvania.

Troops May Cross the Boundary Line in Pursuit of Indians.

WASHINGTON, June 8.—Secretary Olney and Mr. Romero, minister for Mexico, have signed an agreement whereby the troops of either the United States or Mexico may cross the boundary line in hot pursuit of hostile Indians. This is the third time the two governments have entered into such an agreement, the last expiring in 1890.

The occasion for this new arrangement is found in the operations on the border of Kid's band of Indians. Now that the United States troops may continue on a hot trail it is hoped that they will make short work of this notorious outlaw.

REMOVED GENERAL BORRERO.

The Spanish Government Takes Him From Command.

MADRID, June 8.—Lieutenant General Borrero, who picked a quarrel with Marshal Campos and was challenged to fight a duel, has been removed from the command of the Sixth army corps. The government was forced to this action by the pressure of public opinion and the press. General Borrero is superseded by General Ciriza.

The supreme military court met to examine a communication from the minister of war, calling tardily its attention to the accounts of the projected duel published in the Madrid newspapers.

The court will name a military judge and prosecutor to investigate the case with the usual dilatory formalities required to obtain from the senate permission to proceed against Marshal Campos and General Borrero, they being members of the senate.

WARSHIPS FOR JAPAN.

United States Gets Contracts For Two New Vessels.

SAN FRANCISCO, June 8.—S. Asano, one of the chiefs in the naval department of Japan, will arrive in San Francisco on the mail steamer from the Orient with contracts in his possession for the building of two warships for Japan. One of these, it is understood, will go to the Union iron works, in this city, and the other to the Gramps company in Philadelphia.

Another important matter connected with the coming visit of Asano to the Pacific coast is the opening of a new steamship line between Tokio and the Pacific coast.

Barred From the Mails.

WASHINGTON, June 8.—Postmaster General Wilson has issued a lottery order to all postmasters barring the mails against the Mutual Debenture company of Iowa, with headquarters in Chicago and Emporia, Kan., and its officers. These are W. E. Coon, president; J. S. McIntyre, secretary and treasurer. The latter's personal mail also is barred.

The Filled Cheese Bill.

WASHINGTON, June 8.—The president has signed the filled cheese bill, the Arizona funding bill, the fortifications appropriation bill and the bill granting right of way through the Grand Canon forest reservation.

Gladstone on the Turkish Government.

LONDON, June 8.—Mr. Gladstone has written a reply to a correspondent, in which he says: "In my opinion the Turkish government is the greatest scourge of mankind and is the greatest scandal and disgrace to religion, including the religion of Mahomet, on the face of the earth."

The Disturbance Still Continues.

ATHENS, June 8.—Advices have been received here from the island of Crete to the effect that the disturbances in the various parts of the island continue. The Turkish troops are burning villages.

Offered to Furnish Another Ironclad.

MADRID, June 8.—The municipal authorities of Seville have offered to furnish the government with a second ironclad to be built at Genoa.

LOCAL BREVITIES.

Claims committee will meet this evening.

Mrs. James Ford, of Jackson street, is seriously ill.

Hyme's big united shows had a small house Saturday night.

King Harker is confined to his home near the power house with illness.

T. C. Smith, traveler for Wallace & Chetwynd's pottery, is home from a trip in the west.

A large number of visitors went to Pittsburgh today to witness the Sangerfest song festival.

The Moonlight social club will hold another of their enjoyable dances at Rock Springs tonight.

A bicyclist riding down Broadway Saturday night was thrown from his wheel and badly shaken up.

A large number of visitors drove out to the creek yesterday and spent the day at the Jolly Bachelors' camp.

The United Presbyterian Sunday school will hold a lawn fete at Anderson's, West End, tomorrow night.

The storm did not do any damage at the fire station last night, and the usual electrical display at that place was not witnessed.

Mrs. Jesse Colclough, of Minerva street, is convalescing, after suffering five weeks with an attack of nervous prostration.

While one of the firemen was dusting the instruments at the fire station this morning, his dust rag caught, causing the bell to strike.

Sheriff Gill and Deputy Walter Supple drove over from Lisbon Saturday noon, on business of a private nature. They returned yesterday.

Edward Surles left this morning for Sistersville, where together with Mr. Gamble, he has the contract for erecting the new school house at that place.

Harvey Thompson, of Lincoln avenue, has sold his farm, situated just beyond Calcutta, to Willis Wright and son, residents of the latter place. Consideration private.

At present the health of the city is good, and there is not a single case of contagion reported. The small number of deaths that have occurred lately is also worthy of note.

John Kenney, employee of Knowles' china works, will leave for Colorado Springs, Col., tomorrow, to spend the summer at that place for the benefit of his health, which has been very poor for some time.

James Hamilton, one of the trustees of the Ohio Institution for the Deaf and Dumb, left today for Columbus to attend the commencement exercises of the school tomorrow. There are in all about 20 graduates.

A man, whose name could not be learned, upset his buggy at the corner of Fourth and Washington streets Saturday afternoon. He was assisted in righting the buggy and drove off home, none the worse for the upset.

A large copperhead snake was killed on the Fisher farm, near Riverview cemetery, one day last week. The snake came to its death at the hands of Mrs. Fisher, who had quite a struggle with the reptile before she succeeded in killing it.

A letter received from Joseph Chapman, who is making a tour of the state on his wheel, states that he is now in attendance at a meeting of the state botanical association, in session at Opard. Mr. Chapman is a member of the association.

The Epworth league picnic of the First M. E. church, to be given at Rock Point on Wednesday of this week, promises to be one of the most pleasant events of the season. There will be a very large attendance from this city and Wellsville.

The Young Men's Christian association boys are practicing daily for the interstate contest. They are making most flattering progress, and it is thought that when the time rolls around for the contest, every member of the team will be in the best of shape.

Alfred Fritzsche, the representative of a sprinkler system company, returned to Cleveland Saturday evening. He said that he had conferred with a number of manufacturers in regard to placing the system in their works, and that they replied that they would not make any contracts until the presidential question was settled.

The Virginia was unable to reach Pittsburgh on the last trip, owing to the low stage of water. The packet was grounded twice at points below Davis Island dam, and was delayed 24 hours, and did not arrive here until last night. The excursionists from this place, bound for Cincinnati and return, were joined by a party of 21 at Wellsville.

The people of Simm's hill have the laugh on a man who lives in that neighborhood. On Saturday night some boys were playing on top of the hill, when one of the number began to cry murder. His cries were heard by the man, who at once jumped out of bed, grabbed two revolvers and started for the scene. After chasing over the hill awhile, the "ex-captain of the life preservers" returned to his home, of the opinion that some one had fooled him.

CURIOUS MARRIAGE CUSTOMS.

Among Dwarfs of Andaman Island Contracting Parties Climb a Tree.

Some of the customs peculiar to courtship and marriage among the race of dwarfs who inhabit the Andaman island are, according to M. de Quatrefages, who recently published a book called "The Pygmies" about these people, very peculiar. Not the least remarkable of them is the procedure of courtship. The young man who has made his choice addresses himself to the parents, who never refuse, but send the girl into the forest, where, before day, she conceals herself. The young man must find her.

If he does not succeed, he must renounce all claim to her. The wedding ceremony of these people is equally curious. M. Quatrefages thus describes it: "The two parties climb two flexible trees growing near each other, which an old man then makes to bend toward each other. When the head of the man touches the head of the girl, they are legally married."

Turning from Asia to Europe, we find a very curious custom prevailing in Roumania. Among the peasantry of this country, when a girl attains a marriageable age her trousseau, which has in the meanwhile been carefully woven, spun and embroidered by her mother and herself, is placed in a painted wooden box.

When a young man thinks of asking to be allowed to pay his attentions to the girl he is at liberty first to open the box, which is always placed in a convenient position, and examine the trousseau. If he is satisfied with the quantity and quality of the dowry, he makes formal application for the girl's hand, but if not he is quite at liberty to retire.

An Army Reminiscence.

"Speaking of cures for insomnia," said an old soldier, "makes me think of our starting out one morning at 7 o'clock, marching 20 miles, and meeting the enemy at 2 o'clock in the afternoon and fighting till 6, and then marching back to where we started from, getting there at 2 o'clock in the morning."

"Some of the men left in camp had made a fire to cook their coffee by and had kept it going through the evening. It was now a big bed of red coals, with an occasional flicker of flame going up from the charred end of a half burned stick. It was a chilly night, and I thought I'd sit down on a log that there was alongside the fire for a few minutes and get warm a little before turning in. The next thing I knew it was 6 o'clock. I had gone to sleep the minute I sat down and had fallen off the log without waking up."

"Now if, as sometimes happens, I find myself inclined to lie awake nights, I just think of the comfort of my present bed as compared with that by the log, and that is enough."—New York Sun.

NO ARRESTS.

Saturday Night Quiet—Patrol Was Out Twice—Fined For Fast Driving.

Early Saturday evening the patrol was called to Calcutta road, where a man named Robb, who was drunk, was making strenuous efforts to clamber up the hill. When the latter saw the wagon coming he redoubled his exertions and endeavored to elude the officers by getting out of the road. As he was almost home and not in anyway demonstrative he was not placed under arrest.

About 1 o'clock Sunday morning Firemen Terrace and McMillan received a patrol call to Golding's flint mill. Upon arriving they were directed to a spot where lay Mrs. Annie Lowry. Two campers had stumbled over the inanimate form of the woman, and supposing she was dead, roused the neighbors and had the patrol called. The woman was taken to the jail, and Doctor Taylor summoned, who found that she was in a drunken stupor, and suffering from the effects of opium eating. Medicine was prescribed, and as the woman was in an unfit condition to remain in the cell, she was taken to her home on Fourth street. Her husband is employed at the flint mill.

John Hosiak was fined \$2 and costs on a fast driving charge Saturday. He paid the assessment.

Oaf Hineman was arraigned before the mayor Saturday afternoon and fined \$5.60 for attempted pilfering. His father paid the fine.

John Hailey was arrested for stealing a ride on a freight train in the East End by Detective Meehan this afternoon, and brought to jail. He said Pittsburg was his home.

ANCIENT HISTORY.

Here's the Chestnut Worked Off on a Smart Alec.

Some 11 years ago, or about that time, Thompson's pottery was struck by a cyclone, and the top of one of the kilns was somewhat demoralized, and a few bricks scattered about promiscuously. It was not considered essential to have it repaired. Someone, aware of this fact, and having no love for the Smart Alec who misrepresents the Pittsburg Dispatch at this point, worked off the racket of a stroke of lightning occurring yesterday, and the lineal descendant of Munchausen and Hayseed sent a thrilling account of the matter to the Pittsburg paper. The poor dunce is eating humble pie today, and is arrayed in sackcloth and ashes. Turn on the lightning.

THE HORSE KILLED.

An Accident on Calcutta Road Saturday Night.

Saturday night an accident occurred on the Calcutta road which caused the death of one of James McIntosh's horses. James S. McIntosh was driving a team toward his home in St. Clair township, while William Calvin was on his way to the city. When about two miles from the city the two rigs started to pass each other at a narrow place in the road, and one of McIntosh's horses frightened at something and shied. The horse jumped upon the point of the shaft of Calvin's buggy, running it into its heart. The animal, which was a valuable one, dropped dead in its tracks.

A NATURAL CURIOSITY.

A Tree That Has Blossomed Twice This Season.

A. F. Frazier, of Lisbon street, has a mountain ash apple tree growing on his lot that is a natural curiosity. The tree has already borne a crop of fruit this year, and is now in blossom again. The owner planted the tree, which is somewhat of a rarity in this section, several years since and has carefully watched its growth. It has previously blossomed twice in a season—spring and autumn—but this year the second bloom appeared with the beginning of summer.

Mysterious Actions.

While three gentlemen were watching the fire today they noticed a man and a girl come up to an office. The girl struggled to get free but she was taken hold of by the man and pushed in the door. A constable, who was standing near, was notified and at once went to the scene, but found the door locked.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach, one-third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed, and doing my housework. Mrs. W. L. Dunagan, Bonanza, Hickman co., Tenn. For sale by A. H. Bulger, druggist.

Sangerfest Parade Day.

Thursday, June 11, special excursion tickets to Pittsburg will be sold at one fare for the round trip from Dennison, Cadiz, New Cumberland, Wheeling, Bellaire, Alliance and intermediate ticket stations on Pennsylvania lines, good going on regular trains, valid returning until June 13, inclusive. The big Sangerfest parade takes place Thursday, June 11.

The Epworth League picnic at Rock Point Wednesday promises to be the largest picnic that ever left East Liverpool. Agent Hill says that he has 1,000 tickets ready for that day. A brass band will accompany the excursion.

Many of the citizens of Rainsville, Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it. For sale by A. H. Bulger, druggist.

Do You Travel?

If so, never start on a journey without a bottle of Foley's Colic and Diarrhoea cure, a sure preventive of bowel complaints occasioned by change of water or climate. Twenty-five.

THE PRISONER.

The waves in thunderous menace break
Upon the rocks below my tower,
And none will dare the sea king's power
And venture shipwreck for my sake.

Yet once—my lamp a path of light
Across the darkness sea had cast—
I saw a sail—at last! At last!
It gleamed toward me through the night.

My lamp had been the beacon set
To lead the ship through mist and foam,
The ship that came to take me home
To that far land I half forgot.

But since my tower is built so high
And such sharp rocks are hid below
I quenched my lamp, and, weeping low,
I saw my ship go safely by.

—Pall Mall Gazette.

ROYAL WIDOWS.

One or More in Nearly Every Country in Europe.

It is just a thought astonishing to reckon the number of royal widows, regnant or uncrowned, now more or less in public view. First, of course, comes her majesty, Victoria, empress of India, queen of England, Scotland and Ireland. Next to her one must rank her eldest child, Victoria, empress dowager of Prussia, more commonly known as Empress Frederick. Then, in the same family circle, there are the Duchess of Albany, born Princess of Waldeck-Pyrmont, and widow of the English queen's youngest son, and the Princess of Battemberg.

Upon the continent there are a pair of widowed queens regent—Christine of Spain and Emma of Holland. Both have won golden opinions from those they govern, no less than from impartial onlookers. Queen Emma is, by the way, sister to the Duchess of Albany, who is said to have been the first choice of the gay old reprobate, King William of Holland. She refused him, but her sister threw herself into the breach, inspired doubtless by the knowledge that reigning sovereigns, even though somewhat battered and the worse for wear, were not likely to come often a-wooing in starveling if princely households. So they were married, and there is a little queen of Holland to cheat the anticipations of the house of Cumberland.

But none of the queens or empresses can put out of court Dagmar, sometime of Denmark, now the widowed zarina, Marie Feodorovna. It must have gone hard with her, in spite of the splendors the change implied, to give over her Danish name, which means "day dawn," for an appellation so cumbersome. Feodorovna means, by the way, "daughter of Theodore," as does Paulovna "daughter of Paul." The termination "ovna," or "owna," has in all cases that significance in Russian names, just as the suffix "vitch" means always "son of." Thus Alexandrovitch is "the son of Alexander."

Austrian royalty has two widows outright, between whom it is hard to say which has the more tragic story. All the world still remembers the tragedy of Meyerling—how the Crown Prince Rudolph shot himself and the beautiful Marie Vecsera, leaving his wife, Stephanie of Belgium, by no means disconsolate, as the pair had been on the point of judicial separation. Still the shock and shadow of it all for the time overwhelmed her. But she has no continuing sorrow such as has driven to madness Carlotta, once empress of Mexico, who missed seeing her husband, Maximilian, shot only because she had gone to Europe asking help for him, where no help was. Yet it is a question if, in spite of all, she is not less unhappy than her sister, the Empress Elizabeth of Austria, who has been for long years widowed in all but name.

Besides Empress Eugenie, widowed, childless, a withered shadow of her beautiful self, France has a Duchess of Orleans, whom the Legitimists rank as queen dowager—not to mention the wife of her murdered president, Carnot. And there is more than a Gallic trace in the youngest of royal widows, the Bonaparte princess, who married her uncle, the Duke d'Aosta, and since his death has set the Italian court wild with her freaks.—New York Journal.

NO ARRESTS.

Saturday Night Quiet—Patrol Was Out Twice—Fined For Fast Driving.

Early Saturday evening the patrol was called to Calcutta road, where a man named Robb, who was drunk, was making strenuous efforts to clamber up the hill. When the latter saw the wagon coming he redoubled his exertions and endeavored to elude the officers by getting out of the road. As he was almost home and not in anyway demonstrative he was not placed under arrest.

About 1 o'clock Sunday morning Firemen Terrace and McMillan received a patrol call to Golding's flint mill. Upon arriving they were directed to a spot where lay Mrs. Annie Lowry. Two campers had stumbled over the inanimate form of the woman, and supposing she was dead, roused the neighbors and had the patrol called. The woman was taken to the jail, and Doctor Taylor summoned, who found that she was in a drunken stupor, and suffering from the effects of opium eating. Medicine was prescribed, and as the woman was in an unfit condition to remain in the cell, she was taken to her home on Fourth street. Her husband is employed at the flint mill.

John Hossick was fined \$2 and costs on a fast driving charge Saturday. He paid the assessment.

Oaf Hineman was arraigned before the mayor Saturday afternoon and fined \$5.00 for attempted pilfering. His father paid the fine.

John Hailey was arrested for stealing a ride on a freight train in the East End by Detective Meehan this afternoon, and brought to jail. He said Pittsburg was his home.

ANCIENT HISTORY.

Here's the Chestnut Worked Off on a Smart Alec.

Some 11 years ago, or about that time, Thompson's pottery was struck by a cyclone, and the top of one of the kilns was somewhat demoralized, and a few bricks scattered about promiscuously. It was not considered essential to have it repaired. Someone, aware of this fact, and having no love for the Smart Alec who misrepresents the Pittsburg Dispatch at this point, worked off the racket of a stroke of lightning occurring yesterday, and the lineal descendant of Munchausen and Hayseed sent a thrilling account of the matter to the Pittsburg paper. The poor dunce is eating humble pie today, and is arrayed in sackcloth and ashes. Turn on the lightning.

THE HORSE KILLED.

An Accident on Calcutta Road Saturday Night.

Saturday night an accident occurred on the Calcutta road which caused the death of one of James McIntosh's horses. James S. McIntosh was driving a team toward his home in St. Clair township, while William Calvin was on his way to the city. When about two miles from the city the two rigs started to pass each other at a narrow place in the road, and one of McIntosh's horses frightened at something and shied. The horse jumped upon the point of the shaft of Calvin's buggy, running it into its heart. The animal, which was a valuable one, dropped dead in its tracks.

A NATURAL CURIOSITY.

A Tree That Has Blossomed Twice This Season.

A. F. Frazier, of Lisbon street, has a mountain ash apple tree growing on his lot that is a natural curiosity. The tree has already borne a crop of fruit this year, and is now in blossom again. The owner planted the tree, which is somewhat of a rarity in this section, several years since and has carefully watched its growth. It has previously blossomed twice in a season—spring and autumn—but this year the second bloom appeared with the beginning of summer.

Two Cases.

The case of Poke & Co., against Morgan & Gotschall, which was to have been tried before Squire Morley this morning, was settled out of court. The suit was for the price of a subscription to a book.

The goods of J. A. Norris, in the hands of Alex. McBane, which were attached by Theodore Bradshaw for a balance on a note given him by Norris, were replevined by McBane Saturday evening, he claiming the goods were his. The replevin case will be heard tomorrow.

Republican National Convention.

On June 12, 13, 14 and 15 special low rate excursion tickets will be sold on Pennsylvania lines, account Republican National convention, good for return until June 21, inclusive, or one day after adjournment of convention. For particulars apply to Adam Hill, ticket agent, East Liverpool, Ohio, who will also reserve Pullman car accommodation from Steubenville.

Mysterious Actions.

While three gentlemen were watching the fire today they noticed a man and a girl come up to an office. The girl struggled to get free but she was taken hold of by the man and pushed in the door. A constable, who was standing near, was notified and at once went to the scene, but found the door locked.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach, one-third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. Dunagan, Bonaqua, Hickman co., Tenn. For sale by A. H. Bulger, druggist.

Sangerfest Parade Day.

Thursday, June 11, special excursion tickets to Pittsburg will be sold at one fare for the round trip from Dennison, Cadiz, New Cumberland, Wheeling, Bellaire, Alliance and intermediate ticket stations on Pennsylvania lines, good going on regular trains, valid returning until June 13, inclusive. The big Sangerfest parade takes place Thursday, June 11.

The Epworth League picnic at Rock Point Wednesday promises to be the largest picnic that ever left East Liverpool. Agent Hill says that he has 1,000 tickets ready for that day. A brass band will accompany the excursion.

"Many of the citizens of Rainsville, Indiana are never without a bottle of Chamberlain's Cough remedy in the house," says Jacob Brown, the leading merchant of the place. This remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it. For sale by A. H. Bulger, druggist.

Do You Travel?

If so, never start on a journey without a bottle of Foley's Colic and Diarrhoea cure, a sure preventive of bowel complaints occasioned by change of water or climate. Twenty-five.

For sale at Reed's and Bulger's drug stores.

THE PRISONER.

The waves in thunderous menace break Upon the rocks below my tower, And none will dare the sea king's power And venture shipwreck for my sake.

Vet once—my lamp a path of light Across the darkling sea had cast—I saw a sail—at last! At last! It gleamed toward me through the night.

My lamp had been the beacon set To lead the ship through mist and foam. The ship that came to take me home To that far land I half forgot.

But since my tower is built so high And such sharp rocks are hid below I quenched my lamp, and, weeping low, I saw my ship go safely by.

ROYAL WIDOWS.

One or More in Nearly Every Country in Europe.

It is just a thought astonishing to reckon the number of royal widows, regnant or uncrowned, now more or less in public view. First, of course, comes her majesty, Victoria, empress of India, queen of England, Scotland and Ireland. Next to her one must rank her eldest child, Victoria, empress dowager of Prussia, more commonly known as Empress Frederick. Then, in the same family circle, there are the Duchess of Albany, born Princess of Waldeck-Pyrmont, and widow of the English queen's youngest son, and the Princess of Battemberg.

Upon the continent there are a pair of widowed queens regent—Christine of Spain and Emma of Holland. Both have won golden opinions from those they govern, no less than from impartial onlookers. Queen Emma is, by the way, sister to the Duchess of Albany, who is said to have been the first choice of the gay old reprobate, King William of Prussia. She refused him, but her sister threw herself into the breach, inspired doubtless by the knowledge that reigning sovereigns, even though somewhat battered and the worse for wear, were not likely to come often a-wooing in starveling if princely households. So they were married, and there is a little queen of Holland to cheat the anticipations of the house of Cumberland.

But none of the queens or empresses can put out of court Dagmar, sometime of Denmark, now the widowed czarina, Marie Feodorovna. It must have gone hard with her, in spite of the splendors the change implied, to give over her Danish name, which means "day dawn," for an appellation so cumbersome. Feodorovna means, by the way, "daughter of Theodore," as does Paulovna "daughter of Paul." The termination "ovna," or "owna," has in all cases that significance in Russian names, just as the suffix "vitch" means always "son of." Thus Alexandrovitch is "the son of Alexander."

Austrian royalty has two widows outright, between whom it is hard to say which has the more tragic story. All the world still remembers the tragedy of Meyerling—how the Crown Prince Rudolph shot himself and the beautiful Marie Vetsera, leaving his wife, Stephanie of Belgium, by no means disconsolate, as the pair had been on the point of judicial separation. Still the shock and shadow of it all for the time overwhelmed her. But she has no continuing sorrow such as has driven to madness Carlotta, once empress of Mexico, who missed seeing her husband, Maximilian, shot only because she had gone to Europe asking help for him, where no help was. Yet it is a question if, in spite of all, she is not less unhappy than her sister, the Empress Elizabeth of Austria, who has been for long years widowed in all but name.

Besides Empress Eugenie, widowed, childless, a withered shadow of her beautiful self, France has a Duchess of Orleans, whom the Legitimists rank as queen dowager—not to mention the wife of her murdered president, Carnot. And there is more than a Gallic trace in the youngest of royal widows, the Bonaparte princess, who married her uncle, the Duke d'Aosta, and since his death has set the Italian court wild with her freaks.—New York Journal.

After the rays used in the manufacture of paper have been ground to a pulp caustic lye is mixed with the product in order to reduce the small, hard particles that are found in the pulp, and which, if left, would make knots in the paper.
